Dear Colleagues,

Show off your knowledge of High Value Care in our Razor Case Competition!

Here, attending physicians and chief residents will compete against residents and medical students to create a complete and unifying diagnosis for a patient presented during the session. The catch? The team must arrive at the correct diagnosis spending the least amount of money. Additional resources will also be provided for those interested in adapting this didactic session at their own institution. Interested? Register online at http://tinyurl.com/acprazor

Space is limited to 16 participants per section. Please sign up no later than October 20.

Sincerely,

Alexandra Norcott, MD
Resident Internal Medicine
Yale Traditional Internal Medicine Residency Program
Member, Program Committee
Annual Meeting, CT Chapter
