

*Oral Presentation Scoring Guidelines*

Original Research	
Concept	5
Originality	
Relevance of Research	
Study Design and Execution	75
-Objective	10
Rationale-why do study?	
Precise objective or research question: a prior hypothesis stated.	
-Design & Subject Selection	10
Basic design should be identified. Adequate numbers, appropriate selection, eligibility and exclusions, randomization.	
-Interventions	5
Specify clearly what was done or administered.	
-Measurements	15
Methods adequately described, technically valid. Data is germane to hypothesis.	
-Results	15
Reported clearly? Differences significant? If negative, power addressed?	
-Discussion	10
Addresses findings, hypotheses.	
-Conclusions	10
Are conclusions supported by data & do they avoid over-generalization? Do conclusions address hypothesis?	
Presentation	20
-Organization	5
Clear, concise, grammatical structured?	
-Audiovisual aids	5
Figures & tables simple, compact, self-explanatory? Effective graphics?	
-Questions	5
Exhibits knowledge of subject matter in answering questions from floor.	
-Within time	5
