

# American College of Physicians

## REGULATIONS FOR SUBMISSION OF ABSTRACTS

### Clinical Vignette Competition

**Definition:** A clinical vignette is a report of one or more cases that illustrates a new disease entity, or a prominent or unusual clinical feature of an established disease. It may include a summary of pertinent patient history, physical findings, laboratory data, or management description.

### Research Competition

**Definition:** Submissions can report clinical and/or laboratory-based research, delineate a new investigation into mechanisms of disease, or consist of detailed review of a clinical problem. Abstracts concerned with efficiency, cost or method of health care delivery, quality of care, and medical decision-making are also encouraged.

## ABSTRACT INFORMATION AND INSTRUCTIONS

### **Abstract Eligibility:**

Original abstracts that either have or have not been presented at other meetings will be considered. Presentation of original work at the chapter meeting may, however, jeopardize presentation before another society. Abstracts are eligible if they have been published; however, abstracts based upon full papers that have been published are not eligible.

### **Author Eligibility:**

The first author of an abstract must be an ACP Associate Member in good standing.

Co-authors need not be ACP members. Abstracts must be signed by your Program Director.

You are encouraged to write your abstract in a format similar to that used in scientific papers so that it may be cited in curriculum vitae or submitted as evidence of scholarly activity when you are preparing to advance to Fellowship in the American College of Physicians.

### **Format:**

1. Abstracts must be typed on the official abstract form, or a photocopy of the form, single spaced within the border using a 10 point font.
2. Title, typed in all caps, should be brief and clearly state content of paper.
3. Presenting author must list name first.

4. List name and one degree only (e.g., MD, DO) for each author. Indicate their status within ACP (Associate, Member, or Fellow), if applicable. Professional title of positions should not be included.
5. List names of authors' institution(s), city, and state.

Note: The format used in the *Annals of Internal Medicine* is also encouraged.

### **The body of the abstract should be organized as follows:**

1. Purpose for study (one sentence if possible).
2. Simple statement of methods.
3. Summary of results (adequate to support conclusions).
4. Statement of conclusions (Do not use phrases such as "The results will be discussed.")
5. This format may be modified, as appropriate, for Clinical Vignette submissions, or for Research submissions diverging from the standard research methods.

### **Style:**

Write for clarity and directness. Avoid the use of medical jargon or stock empty phrases. A table may be used if it fits within the border lines. Keep in mind that grammar will be taken into consideration. Please proofread your abstract carefully.

### **Abbreviations, Symbols, and Nomenclature:**

Usage should conform as closely as possible to that recommended in CBE Style Manual, (6th edition., 1994), published by the Council of Biology Editors, and available from CBE Secretariat, 9650 Rockville Pike, Bethesda, MD 20814. Nonstandard abbreviations must be kept to a minimum and must be explained when used. Generic names of drugs are preferred: a proprietary name may be given only with the first use of the generic name.

Units of measurement should be metric (SI), including those for height of length, mass (weight), and body temperature. Preferred concentration units in clinical chemical measurements are those recommended by the International Union of Pure and Applied Chemistry: for substances of known, pure composition, millimoles/milliliter or millimoles/liter; for mixtures of substances where exact composition is not known, grams/liter.

## ABSTRACT FORM – ACP MINNESOTA CHAPTER 2004

To ensure that your abstract is considered, complete all information below. This form may be copied. You must be an Associate or Student Member\* to enter this competition.

Must be at least 10-point font. A sharp typeface will help reproduction. Be sure to single-space and stay within borders. Do not let text flow to push signature lines onto second page. Abstract must be one page only.

TYPE ABSTRACT HERE.

Please check one. First author is:

- Medical Student  
 PGY-1  
 Resident  
 Chief Resident  
 Fellow (national only)

Please check only one. Abstract is submitted to:

- Poster  
 Oral  
 Either

General Classification:

- Clinical Vignette Competition  
 Research Competition

*If in the conduct of these studies, human or animal subjects were exposed to risks not required by their medical needs, the author affirms that the study was approved by an appropriate committee, or, if no such committee was available and informed consent was needed, it was obtained in accordance with the principles set forth in "The Institutional Guide to DHEW Policy on Protection of Human Subjects" and the "Guide for the Care and Use of Laboratory Animals," published by the NIH.*
