

SOCIETY OF AIR FORCE PHYSICIANS

**The Society of Air Force Physicians
was disbanded in 2007 and continues as an
Honorary Society of the US Air Force Chapter of the American College of Physicians**

SOCIETY OF AIR FORCE PHYSICIANS PRESIDENTS

1958-60 Maj Gen Archie A. Hoffman
1961-64 Colonel Herbert W. Coone
1965-66 Brig Gen Henry C. Doris
1967 Colonel James S. Clark
1968 Colonel Timothy N. Caris
1969 Colonel Ray F. Fitch
1970 Colonel Robert O. Amdall
1971 Colonel Monte B. Miller
1972 Colonel Gerald W. Parker
1973 Colonel Gerald Parker
1974-75 Colonel Charles A. Coltman
1976 Colonel Alfred L. Thompson
1977 Colonel John H. Triebwasser
1978 Colonel Alexander M. Sloan
1979 Maj Gen Murphy A. Chesney
1980 Colonel Emmet B. Ferguson, Jr.
1981 Colonel Fredrick R. Bode
1982 Colonel Robert E. Lordon (resigned 6/82-retirement)
1982 Colonel Ralph D. Reynolds (resigned 10/82- retirement)
1982-83 Colonel Albert B. Briccetti
1984 Colonel George W. Meyer
1985 Colonel David R. Hafferman
1986 Colonel John R. Sharp
1987 Colonel David H. Gremillion
1988 Colonel Steven D. McDonald
1989 Colonel R. Neal Boswell
1990-91 Colonel George E. Crawford
1992 Colonel Robert Hawkins
1993 Colonel Donald Clement
1994 Lt Colonel Kenneth Vann
1995 Lt Col Mike Bengé
1996 Lt Col Jay B. Higgs
1997 Colonel Jose Guiterrez-Nunez
1998 Lt Col Gregory Melcher
1999 Lt Col Paul R. Glowienka
2000 Colonel Theodore M. Freeman
2001 Colonel J. Richard Downs
2002 Colonel Steve Chambers
2003 Colonel Matt Dolan
2004 Colonel Steve Chambers
2005 Lt Col Michael B. Osswald
2006 Col James Quinn
2007 Col Thomas Grau

CHAPTER LAUREATE AWARDS

1992	Lt Gen Monte Miller
1993	Col Al Briccetti
1994	Lt Gen Alexander Sloan
1995	No Award
1996	BG (ret) Gerald Parker
1997	Col (ret) Kenneth Maffet
1998	Col (ret) George Crawford
1999	Col (ret) R. Neal Boswell
2000	Lt Gen (ret) Murphy A. Chesney
2001	Col (ret) George Meyer
2002	Col (ret) Takeshi Wajima
2003	Meeting Cancelled
2004	Col (ret) Jay Higgs
2005	Col (ret) Jose Gutierrez-Nunez
2006	Col (ret) Theodore Freeman
2007	No award
2008	Col (ret) Matthew Dolan

US AIR FORCE GOVERNORS

1950-54 Harry G. Armstrong
1954-59 Dan C. Ogle
1958-63 Oliver K. Niess
1963-67 Richard L. Bohannon
1967-68 Kenneth E. Pletcher
1968-69 Henry C. Dorris
1969-70 Robert B. W. Smith
1971-73 Ernest J. Clark
1973-76 Dana G. King, Jr.
1976-78 Ernest J. Clark
1978-83 Murphy A. Chesney
1983-86 Gerald W. Parker
1986 Monte B. Miller, Maj. Gen.
1986-89 Alexander M. Sloan, Maj. Gen.
1989-92 Albert B. Briccetti, Col.
1992-96 Charles K. Maffet, Col.
1996-00 James M. Benge, Col.
2000-04 Arnyce R. Pock, Col.
2004-08 Kimberly P. May, Lt. Col.
Current Vincent F. Carr, Col.

MALCOLM C. GROW MEMORIAL LECTURE

The Malcolm C. Grow Memorial Lecture, which is nearly as old as the Society of Air Force Physicians, was begun to honor Major General Malcolm C. Grow (1887-1960). General Grow received his medical degree from Jefferson Medical College in 1909, and served as a volunteer surgeon with the Russian Army from 1915 to 1917. In 1934, General Grow was co-founder of the Aeromedical Laboratory at Wright-Patterson Air Force Base, Ohio. During World War II, he served as surgeon of the Third Air Force in the European Theater and later in the Pacific Theater. He was awarded the Legion of Merit in 1943 for developing body armor to protect combat crews.

In 1946, General Grow was appointed Air Surgeon for the Army Air Force. He remained a surgeon through the transition of the medical department into an independent Air Force Medical Service, and was named the first Surgeon General of the United States Air Force on 1 July 1949. General Grow died at USAF Hospital, Andrews AFB, Washington, DC on 20 October 1960. The hospital was later renamed Malcolm Grow USAF Medical Center in his honor.

Reading for the presentation of the award:

“This award is presented annually to an eminent civilian consultant chosen by the Chapter. Founded in 1962, it memorializes Major General Malcolm C. Grow (1887-1960) whose military achievements included founding the Aeromedical Laboratory at Wright Patterson AFB, Ohio; serving as surgeon of the Third Air Force, Eighth Air Force, US Strategic Forces in the European Theater, and later in the Pacific Theater; and having been named the first Surgeon General of the United States Air Force. USAF Hospital, Andrews AFB, Washington DC, was renamed Malcolm Grow USAF Medical Center in his honor.”

PHILIP G. KEIL LECTURE

COLONEL PHILIP G. KEIL

The Philip G. Keil Memorial Lecture was established in 1977 to honor Colonel Philip G. Keil, USAF, Medical Corps (1917-1975). Colonel Keil received his medical degree from the State University of Iowa in 1941. He served as a Squadron and Group Flight Surgeon in the China-Burma-India and Western Pacific Theaters. Following World War II, he returned to Iowa where he completed a residency in Internal Medicine while maintaining a reserve commission.

Dr. Keil was recalled to active duty in 1951, when there were only three certified internists in the entire Air Force. After serving as Chief of Medicine at the USAF Hospital, Maxwell AFB, he moved to the USAF Hospital, Lackland AFB, where he served as Chairman, Department of Medicine and first Program Director of the Intern and Residency Training Program. In 1956, Colonel Keil suggested to the Surgeon General that the Medical Service sponsor an educational meeting for Air Force internists. It was through this suggestion and diligent follow-up efforts that resulted in the first meeting of the Society of Air Force Internists and allied Specialists in February 1958 at Wilford Hall USAF Medical Center.

Dr Keil's distinguished Air Force career ended when he was medically retired in 1971 after serving as Deputy Commander of Malcolm Grow USAF Medical Center.

Reading for the presentation of the award:

“The Philip G. Keil Lectureship is presented to a senior active duty or recently retired physician to commemorate that individual's leadership in a particular specialty. The award was established in 1977 to honor Col Philip G. Keil (1917-1975), a flight surgeon during World War II and later, one of the air Force Medical Service's first internal medicine specialist. He subsequently became the chairman, Department of Medicine at USAF Hospital, Lackland AFB, and the department's first Intern and Residency Training Program Director. Through Dr Keil's diligent efforts, the first meeting of the Society of Air Force Internists and Allied Specialists (now known as the Society of Air Force Physicians) was convened at Wilford Hall USAF Medical Center in February 1958.”

PHILIP G. KEIL LECTURE RECIPIENTS

1977	Col Charles A. Coltman, Jr., FACP

ARTHUR GROLLMAN AWARD

Arthur Grollman, MD

Arthur Grollman, MD (1901-1980) was an outstanding academician and researcher who was a close and valuable friend of the Medical Corps, United States Air Force. An internationally renowned researcher, Dr. Grollman was the first to develop a method for determining cardiac output, and pioneered in the effects of renal function on hypertension. He was one of the first to develop peritoneal dialysis and provided early research that led to the development of the dialysis machine.

Born October 20, 1901, he obtained his BS, Ph.D. (Chemistry), and medical degrees at Johns Hopkins University. Following faculty positions at Johns Hopkins, he joined the faculty at Southwestern Medical School in 1944, where he held positions of professor of medicine, professor and chairman of the Department of Physiology and Pharmacology, acting chairman of the Department of Biochemistry, and professor and chairman of the Department of Experimental Medicine. It was during this period that he was Consultant in Internal Medicine at Wilford Hall USAF Medical Center and civilian consultant to the Surgeon General, USAF. He was the Boynton Lecturer, Society of USAF Internists, in 1958, and Malcolm Grow Memorial Lecturer, Society of USAF Internists, in 1971.

Dr Grollman was one of the first investigators to isolate steroids from the adrenal gland and published a classic work, "The Adrenals," in 1936. He was nominated for the Nobel Prize for his renal research in 1950. Despite an extremely intensive schedule, Dr Grollman maintained a close association and friendship with the USAF Medical Corps and the Society of Air Force Physicians. It was with great admiration and respect that the Society of Air Force Physicians dedicated the outstanding resident presentation to this truly remarkable man.

Reading for the presentation of the award:

“The Arthur Grollman, MD (1901-1980) Award was established in 1981 to be presented for the best resident paper at the Society's annual meeting. An outstanding academician and researcher, this Nobel Prize nominee is renowned for his pioneering work in the fields of adrenal steroids and renal function. and was instrumental in the development of the dialysis machine. Despite an intensive schedule, Dr. Grollman remained a friend of the Air Force Medical Service and the Society, serving as both consultant for internal medicine at Wilford Hall USAF Medical Center and civilian consultant in internal medicine to the USAF Surgeon General.”

ARTHUR GROLLMAN AWARD FOR OUTSTANDING RESIDENT PAPER RECIPIENTS

RESIDENT RESEARCH PRIZE

1963 Capt John J. McPhaul (Wilford Hall Medical Center)
1964 Capt Joseph C. Kopinski (Wilford Hall Medical Center)
1965 Capt Duncan A. McIntosh (Wilford Hall Medical Center)
1966 Capt Ralph D. Reynolds (David Grant Medical Center)
1967 Capt Robert E. Lordon (Wilford Hall Medical Center)
1968 Capt Frank Sanders (Wilford Hall Medical Center)
1969 Major J. J. Costanzi (Wilford Hall Medical Center)
1970 Prize discontinued
Reinstituted as the Arthur Grollman Award
1982 Capt Alex Limani (Keesler Medical Center)
1983 Capt Gary C. Prechter (Wilford Hall Medical Center)
1984 Capt J. Christopher Farmer (Wilford Hall Medical Center)
1985 Capt Stephen Block (Wilford Hall Medical Center)
1986 Capt Brad Prestidge (David Grant Medical Center)
1987 Capt Richard Henry (David Grant Medical Center)
1988 Capt Michael P. Vaughn (Wilford Hall Medical Center)
1989 Capt Thomas P. Bradley (Wilford Hall Medical Center)
1990 Capt Thomas Carlson (Wilford Hall Medical Center)
1991 No award; (meeting cancelled)
1992 Capt J. J. DeGoes (Wilford Hall Medical Center)
1993 Capt R. LoCicero (Keesler Medical Center)
1994 Capt Deborah Ornstein (David Grant Medical Center)
1995 Capt Ann Gilbert (David Grant Medical Center)
1996 Capt Caroline Dewitt (Wilford Hall Medical Center)
1997 Capt D. Scott Harper (Keesler Medical Center)
1998 Capt Todd W. Frieze (Wright Patterson AFB)
1999 Capt Matthew B. Carroll (David Grant Medical Center)
2000 Captain Patrick J. Danaher (Wilford Hall Medical Center)
2001 Capt Andrew Mackinnon (Wright Patterson AFB)
2002 Capt Damon Tanton (Wright Patterson AFB)
2003 No award; (meeting cancelled)
2004 Capt Christopher Brown (Wright Patterson AFB)
2005 Capt Melissa King (Wilford Hall Medical Center)
2006 Capt Jeffrey La Rochelle (Wilford Hall Medical Center)
2007 Captain Jacob Hoover (Wilford Hall Medical Center)
2008 Major Erik R. Schwalier, (Wilford Hall Medical Center)

JAY SANFORD AWARD

JAY P. SANFORD, M.D.

The award for the best paper presentation by a fellow trainee is named for Dr. Jay P. Sanford who was a great advocate of military medicine for 42 years of his brilliant career in academic medicine. Dr. Sanford graduated cum laude from the University of Michigan in 1952, and completed his research fellowship at Harvard Medical School. He was commissioned as a First Lieutenant in the U.S. Army Reserve in 1954 and spent two years on active duty at the Walter Reed Army Institute of Research as Chief of the Bacteriology Section. He remained in the Reserve for the rest of his life and rose to the rank of Colonel in Special Forces. In 1957 he joined the University of Texas Southwestern Medical School, and for the next 18 years he held various important positions including Chief of the Infectious Disease Section and Vice Chair of the Department of Medicine. He left this position to be Founding Dean and later the third President of the Uniformed Services University of the Health Sciences. He also played a key role in creating the Henry M. Jackson Foundation for the Advancement of Military Medicine. He was chairman of numerous professional societies including the Infectious Disease Society of America. Among his many awards is the Department of Defense Distinguished Civilian Service Medal. A prolific researcher and author, his Guide to Antimicrobial Therapy remains the definitive bedside resource for physicians around the world.

JAY SANFORD AWARD FOR OUTSTANDING FELLOW PAPER RECIPIENTS

1998 Capt Brian Kahl (WHMC)
1990 Capt Deborah (Narkum) Burgess (Stanford University)
1991 (None; meeting cancelled)
1992 Capt Jill Rossrucker (UTHSC)
1993 Capt Steven Smart (University of Iowa)
1994 Capt Scott Wegner, (Brigham & Women's)
1995 Capt Don Howard (WHMC)
1996 Capt Laura Jacobs (WHMC)
1997 Capt David Thornton (WHMC)
(Fellow's Award Renamed Jay P. Sanford award 1998)
1999 Major Michael Fugit (WHMC)
2000 Captain Carey L. O'Bryan, IV (WHMC)
2001 Major Scott A. Moore (WHMC)
2002 Major Stephen Harrison, US Army (SAUSHEC)
2003 No award, meeting cancelled
2004 Capt Jeffrey Feinstein (WHMC)
2005 (None; only two abstracts)
2006 Major Dustin Stevenson
2007 No award
2008 Capt Dara D. Regn, (BAMC)

MAJOR GENERAL ARCHIE HOFFMAN GOVERNOR'S AWARDS

MAJOR GENERAL ARCHIE A. HOFFMAN

Major General Archie A. Hoffman, AF, MC, died at the age of 72 on 19 June 1985, at Malcolm Grow USAF Medical Center, the hospital he had commanded for nine years. Dr. Hoffman was born and raised in Boston, Massachusetts, graduated Massachusetts State College in 1934 and received his medical degree from the Medical College of Virginia in 1938, graduating number two in his class. He interned and did one year of Medicine at the Boston City Hospital. In September 1940, he entered on active duty as a general medical officer in the Army Air Corps at Westover Field, Massachusetts as a First Lieutenant and become a Flight Surgeon ("Aviation Medical Examiner") in 1941. After additional training in Tropical and Military Medicine, he was assigned to the Sixth Air Force from July 1942 to April 1944 and ran hospitals in Guatemala, Peru and Panama. During the last part of World War II, he served in the AF Personnel Distribution Command, with duty in Atlantic City and in Greensboro, North Carolina.

Major Hoffman, in 1946, was assigned as the Command Surgeon of the Antilles Area, where he operated six hospitals and acted as consultant in Internal Medicine. From 1949 to 1951, he went through the Army Medical Residency Program at Walter Reed Army Hospital. During- this period, he was involved with the treatment and evaluation of traumatic vascular and cold injuries resulting from the Korean conflict. As a Lieutenant Colonel, he was assigned as the Chief of Medicine at the USAF Hospital, Sheppard Air Force Base, where he established proficiency training programs for physicians, produced a series of monographs in basic science subjects and set up a cardiovascular center and a poliomyelitis center. In 1953, he was reassigned to Headquarters Technical Training Air Force as Deputy Surgeon and Director, Professional and Aviation Medicine Divisions. He supervised ten hospitals ranging from 125 to 1100 beds. He became a Diplomat of the American Board of Internal Medicine.

Colonel Hoffman was reassigned in 1955 to the Office of the Surgeon General as Consultant in Internal Medicine and Chief of the Consultants Group. He participated in the formulation of Air Force directives on TB, polio, acute renal failure, and central ECG repository and the hospital professional library. In 1958, he became the Director of Professional Services at what was then the USAF Hospital Andrews (later Malcolm Grow USAF Medical Center). He assumed command of the hospital in July 1959. Under his tenure, the following teaching programs were instituted at Andrews - medical internship, dental internship, general practice residency (the first in the air Force and the forerunner to Family Practice), dietetic training, Phase II Medical Laboratory Specialist training and Foreign Observer Medical Training.

As a Fellow of the American College of Cardiology, Colonel Hoffman spearheaded many of the clinical investigations and standards for Cardiology in the Air Force. Particularly noteworthy was his very early institution of cardiac telemetry, continuous ECG recording and monitoring. He was dedicated to the highest level of excellence in the delivery of quality medical care. Of special note was his involvement with the Society. He was one

of the founding members of what was then the Society of Air Force Internists and Allied Specialists (later to become the Society of Air Force Physicians), serving as its first President from 1957-1958, Vice President from 1959-1960 and Governor from 1961-1962.

It was because of his commitment and active support of the goals of our group that the Society Board of Governors chose to memorialize the Governor's Award after him: the Archie A. Hoffman Governor's Award.

Reading for the presentation of the award:

“The Major General Archie Hoffman Award was established in 1985 to honor a junior staff member for contributions to the Air Force Medical Service not limited to clinical investigation or participation in Society activities. The award commemorates Major General Archie A. Hoffman (1913-1985), an Air Force flight surgeon and cardiologist whose early career included service during both World War II and the Korean conflict. Later, he served as chief of the Consultants Group in the Office of the Surgeon General and as commander of USAF Hospital, Andrews AFB, where several of this facility's training programs were established. In addition, Dr Hoffman served as the first President of the Society, and later as the Air Force Governor for ACP.

There are two Major General Archie Hoffman Awards;

Academic Award – Presented to a junior staff physician from a CONUS teaching medical center (Wilford Hall Medical Center, Wright-Patterson Medical Center, Keesler Medical Center, or from an Army or Navy teaching medical center) for excellence in academic medicine as exemplified by Clinical Practice, Clinical Teaching, Research or Accomplishments in Stimulating Trainees to Pursue Research.

Field Award - Presented to a junior staff physician not from a medical center, serving elsewhere in the Air Force Medical Service, demonstrating excellence in Clinical Practice, Administrative Practice, and/or Through Contributions To Their Community.

ARCHIE A. HOFFMAN GOVERNOR'S AWARD

1986 Major John Seaworth (Wilford Hall Medical Center)
1987 Major Stephen Derdak (Wilford Hall Medical Center)
1988 Lt Col Robert Hawkins (Wright-Patterson Medical Center)
1989 Major Charles Nolan III (Wilford Hall Medical Center)
1990 Major Mark Wolfe (Keesler Medical Center)
1991 (meeting cancelled - no award given)
1992 Major Randy Smart (Ramstein AB)
1992 Major Greg Melcher (Wilford Hall Medical Center)
1993 Major Jeffrey Bodin (Field award)
1993 Major Matthew Dolan (Wilford Hall Medical Center)
1994 Major Mike Sanger (Misawa AB)
1994 Major John R. Downs (Wilford Hall Medical Center)
1995 Major Jeff Demain (MacDill AFB)
1995 Major Mark Jeffries (Wright Patterson AFB)
1996 Captain Patricia Russo-Magno (Moody AFB)
1996 Major Greg Spencer (Wilford Hall Medical Center)
1997 Capt. Eric Smith (Barksdale AFB)
1997 Major Robert Saad (Wilford Hall Medical Center)
1998 Major James Quinn (RAF Lakenheath)
1998 Major Matthew Carpenter (Keesler AFB)
1999 Capt James McArthy (Tyndall AFB)
1999 Major Patricia Meier (Wilford Hall Medical Center)
2000 Captain Kip Robinson (RAF Lakenheath)
2000 Captain Kevin O'Brien (Wilford Hall Medical Center)
2001 Major Melver Anderson (David Grant Medical Center)
(No field award in 2001)
2002 Captain Matt Carroll (RAF Lakenheath)
2002 Major Tanya Fancher (Travis AFB)
2003 Captain Richard Tyson (Yokota AFB)
2003 Major Brian Agan (Wilford Hall Medical Center)
2004 Captain Meghan E. Hayes (RAF Lakenheath)
2004 Major Craig A. Kovitz (Keesler AFB)
2005 Major Tracee Ray (Aviano AFB)
2005 Major Patrick Danaher (David Grant Medical Center)
2006 Major Michael Zane (Field Award)
2006 Major Michael Feldman (David Grant Medical Center)
2007 Major Jason Stamm (Wilford Hall Medical Center)
2008 Major Vincent Marconi (Wilford Hall Medical Center)
