

Dear Chapter Leaders,

The National Academy of State Health Policy (NASPH) release an excel spread sheet detailing the results of a “scan” of state Medicaid and SCHIP efforts to advance medical homes. Based on specific criteria, 34 initiatives in 31 states were identified as recent state efforts to advance medical homes for Medicaid or SCHIP program participants.

The workbook includes three worksheets that, together, list all initiatives identified:

1. *Criteria for Inclusion* - reiterates the criteria for inclusion in the analysis.
2. *Included in Analysis* - provides information about those that met the criteria for inclusion in the analysis.
3. *Not Included in Analysis* - provides information about identified initiatives that were not included in the analysis, including the reason the initiative was not included.

Click here to access the excel workbook (the result of the scan)
