- Where do we stand in conquering health and healthcare disparities?
- What are the next steps in moving us forward to eliminating health disputes?

PN 017 Conflict Management and Assertiveness for Women Physicians

- What is the difference between negotiation and conflict management?
- What strategies and styles do people use to resolve conflict, and when can each be used most productively?
- How is "assertiveness" defined, and what are the payoffs?
- What issues for women physicians are specifically attached to these two overlapping skill areas of conflict management and assertiveness?

PN 041 What Makes a Good Neighbor? The Interface between the Patient Centered Medical Home (PCMH) and Subspecialty Practices

- What is a PCMH neighbor?
- What real life "lessons learned" are available from PCMH demonstrations exploring the interface between the PCMH and subspecialty practices?
- How can service agreements facilitate the linkage between PCMH and subspecialty practices?

Saturday, April 24, 2010

9:30 AM - 10:30 AM

WSO 201 Presentation Skills for Physicians: Tips from a Pro

See a master teacher in action and learn how to polish your presentation skills. It's not enough to know your subject matter inside and out. How you deliver your message is equally important. Scott Litin, MD, MACP, Professor of Medicine at the Mayo Clinic and one of the highest-rated speakers at ACP's annual meeting will share tips that are certain to enhance your presentation skills. Learn how to pace your presentation, beginning with a compelling opening and ending with a strong closing. Be aware of body language that can either enhance or detract from your presentation. Learn technical tips that separate amateurs from professionals. Apply the skills you'll learn from Dr. Litin to make your next presentation go better than your last.

- Organize a teaching presentation with special emphasis on an effective opening and strong closing.
- Demonstrate helpful skills of presentation techniques.
- Create and deliver their next presentation more effectively than they have in the past.
- Constructively criticize the future presentations of others when they listen to them.

MTP 061 Looking Ahead, Do You Let Life Happen or Try to Influence It?

- Consider your definitions of "success" and how to achieve it.
- Define your most preferred personal and professional settings.
- Determine your particular boosters and barriers to change.
- Set some doable career and life goals.

PN 030 Rebuilding Primary Care and General Internal Medicine: Challenges and Solutions

- What are the current problems facing primary care?
- What needs to be done to rebuild primary care?
- What are Congress and the Administration doing to rebuild primary care?

MTP 058 Teaching Medicine: The Skillful Leader in Medical Education

4:00 PM - 5:00 PM

MTP 057 Beyond Expectations: Communicating Interracially and Interculturally

- Learn how to uncover and examine one's own mental models.
- Identify areas where one's mental models may negatively impact relationships.
- Replace faulty mental models with more constructive ones, plus seek out new material as input.
