A Year in Review

Fostering Excellence in Internal Medicine
This live activity has been designated for 4.5 CME credits.
Dear Colleague,

I invite you to join me and your colleagues in internal medicine at the next scientific meeting of the Hawaii Chapter of the American College of Physicians, being held February 21, 2015, at the Koolau Conference Center.

This meeting is not just for ACP members. I particularly want to invite nonmembers to join us for this important clinical update and to learn about the benefits of membership at the same time.

In addition to earning 4.5 CME credits, by attending this meeting you will:

- Gain insight into recent medical advances.
- Discuss local and national issues affecting the practice and teaching of internal medicine.
- Greet old friends, meet new friends, and develop a network of colleagues in your area.

Between scientific sessions, please visit the College table. You will find information on new ACP programs, products, and services. There's always something new at the College table—stop by and see for yourself.

To ensure your place at this invaluable meeting, complete the registration form at the back of this brochure and send it in today. The opportunities available at this meeting will help you meet not only your needs as a physician but also the needs of the patients you serve.

I look forward to seeing you in Kaneohe.

Sincerely,

Mary Ann Antonelli, MD, FACP
