

The American College of Physicians invites your practice to participate in Closing the Gap: Diabetes Care (CTG), a team-oriented, multi-format, practice based, on-line educational OI intervention. **CTG** will help physicians and their staff to develop and improve strategies for creating systems change in their practices, to improve the care they provide to patients with diabetes.

This program incorporates the Chronic Care Model for systems change, and the Plan-Do-Study-Act (PDSA) cycle for quality improvement.

What are the benefits?

- Free participation. There are no tuition or registration fees.
- Online educational materials, chart tools, patient tools, data abstraction forms and support materials.
- Access to ACP's most eminent faculty who will give you hands on advice and coaching throughout the program.
- Assistance with IRB approval. ACP is responsible for overall IRB approval of this project and we will provide you with all IRB approved materials, consent forms, etc and we will assist you with any IRB applications you may have.
- Reports on your practice measurements.
- 53 total hours of CME credit (for the online training materials, practice-based learning and all conference calls) for physicians.
- ABIM recognition of this program for Part 4 Maintenance certification and NCQA certification.
- 15.3 hours of CE credit for nurses and other allied health professionals.

What is involved?

- Designate a team of 1 physician, 1 nurse or allied health professional and 1 office administrator:
- Provide practice data from 35 patients via chart review. A second measurement is taken after approximately 4-6 months later.
- Send two progress reports for review on two scheduled conference calls that will last 1-2 hours.
- Obtain any IRB approvals necessary from your institutions, ACP will assist you
- Reading on-line educational materials and videos.

What are the risks?

Physician chart audits with no identifiable patient data and will be sent from the clinic sites by mail, fax or web to the sponsor's office at the department of Clinical Programs and Quality of Care at the American College of Physicians headquarters building in Philadelphia, Pennsylvania.

If you have any questions about this study or your participation in this study, you have questions, complaints or concerns about the study, or if at any time you feel you have experienced a research-related undesired outcome, contact:

Lia Verbonitz
American College of Physicians
190 North Independence Mall West
Philadelphia, PA 19106

"The American College of Physicians is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education to physicians.

The American College of Physicians designates this activity for a maximum of 35 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he or she actually spent in the educational activity."

This program is sponsored by an unrestricted educational grant from Novo Nordisk.
