MESSAGE FROM GOVERNOR

Dear Colleagues,

Greetings from the India Chapter of the ACP!!

The nation, recently celebrated Holi with joyful colours and Good Friday with earnest devotion. Now, we await for the declaration of Eid. It is always challenging yet possible for people living with Diabetes to maintain their glucose levels within the target range during the holy month of Ramadan with the fasting and feasting traditions. I wish all ACP members with the discussions and training around this topic, will be able to meet this challenge easily and successfully for their patients.

The ACP annual conference at Boston is coming up in the next two weeks. It gives me immense pleasure to share that more than 50 delegates are registered from India for the same. Many of them are being awarded the honorific FACP during convocation ceremony at the Boston conference. I wish all a great conference with plentiful opportunities for learning and networking coming your way. I am certain it will serve to build the knowledge pool of the participating physicians.

Our team of resident doctors is also travelling to Boston for the Doctor's Dilemma program. I take this opportunity to congratulate Dr. Eshan Taneja, Dr. Aditya Sreehari, both from Kasturba Medical College, Manipal & Dr Nilashish Dutta from North Bengal Medical College, Darjeeling for being part of Team India for the internationally acclaimed, Osler's Cup. I wish them success in their endeavour and kudos to them for keeping the Indian flag high. In the same breath, I also congratulate Dr. Mukhyaprana Prabhu for his hard work and efforts along with Governor elect designee Dr. Swati Srivastava & advisory council member, Dr. Anchin Kalia, both from Jaipur, for the team selection and training of all participants. Dr. Mukhya Prana Prabhu, mentor of team India will be accompanying them to Boston.

The specially curated, educational, web series, the ECP Case files, the Soul Curry & AI in human health, have been running successfully with an online episode every month. The ECP Case files are being seamlessly conducted by Dr. Preeti Dhoat from AIIMS, Bhatinda while Dr. Ajoy Tewari from Hind Institute of Medical Sciences, Lucknow has been the master-planner for Soul Curry and AI in human health has been well-guided by the dynamic trio of Dr. Amit Dey from Kolkata and Dr Alok Modi from Mumbai, under the supervision of Dr. SV Kulkarni from Navi Mumbai. Do share your feedback for any of the programs undertaken and also new ideas for future programs with us at officeacpindia@gmail.com.

This year, we plan to reach out to those areas, particularly where the ACP presence is not profound, in terms of membership. With newer educational CMEs in areas like North East of India, it will help in establishing a rapport with physicians locally.

This brings me to an important task of acknowledging two of our advisory council members, Dr. Abhijeet Kumar and Dr. Bijay Patni. Dr. Kumar has been instrumental in conducting awareness activities for anemia, diabetes, obesity and other metabolic diseases in the villages of the state of Bihar under the village outreach program of the ACP India chapter. Similarly, Dr. Patni has initiated awareness and screening activities under the village outreach program in the states of West Bengal, Sikkim and parts of the north east. My heartiest congratulations and best wishes to both of them on this impactful endeavour.

It is my sincere appeal to all members of the ACP India chapter to engage in patient & public education activities in the local area and share the report with us. It will definitely get featured in our newsletter. At this point, I would like to encourage you to maintain your membership without any breaks to remain on board for the different activities undertaken by the ACP India Chapter and enjoy many other benefits. You may apply for the coveted FACP if you have been a member of the ACP for 3 consecutive years. You may also apply for the various awards of the ACP India chapter and eligible candidates are hereby encouraged to apply for MACP.

With warm wishes, I am looking forward to seeing you in Boston.

Prof. Anuj Maheshwari
Governor

ACP India Chapter

Dr. Purvi Chawla
ACP India Chapter
Advisory Council

EDITORIAL

My dear ACP family,

When entrusted with the responsibility of compiling this newsletter and writing the editorial, I pinched myself hard to see if I were dreaming; soon enough I was wide awake and ready to share my thoughts with you all.....

After the colourful celebrations of the Republic Day and Holi, we offered prayers on the solemn Good Friday and welcomed Easter. Now, as we await the Eid-Al-Ftr celebrations, I really ponder on the beauty of India as the melting pot of cultures. Paradoxically, it is the diversity that poses a unique set of challenges as far as healthcare is concerned. The government, on one hand, attempts at imparting equality in the access to healthcare resources but it is the important associations like ACP India Chapter that help in bringing equity in availability and utilization of the healthcare facilities. The strong emphasis by ACP Indian Chapter on physician and patient education, volunteerism, village outreach programs creating awareness and providing screening opportunities for as many conditions possible; scientific updates, training sessions and case discussions in different parts of the country focused on consolidating primary care practice and strengthening internal medicine and helping to develop and guide young physicians in their careers, has been exemplary.

ACP India Chapter is a force to reckon with, drenched in a plethora of activities impacting the world of physicians and society at large while fostering a positive vibe and nearly instantaneous connections between members, council members and senior experts. Thus ACP India Chapter has become an extended family of professionals, aligned towards improving scientific standards of healthcare in India and lives of people.

My salutations and heartfelt congratulations to our leader, our Governor, Prof. Anuj Maheshwari for his vision and proaction in taking ACP India Chapter to the heights it enjoys today. He is grooming the team to undertake newer challenges and find solutions enhancing patient care while promoting equitable access. I wish our Governor elect, Prof. Swati Srivastava, the very best in her endeavours as well, as we all stand by to support them.

Women's health has never been out of focus with the ACP India Chapter as it is increasingly clear that providing health education to a woman beneficially impacts the health of the entire household. Recent statistics show the prevalence of childhood obesity is over 8% and overweight is over 12% in India. Managing childhood and adolescent obesity is a skill that physicians need to empower themselves with. I am sure in the coming years that ACP India Chapter will also partake in these efforts and garner more and more energy to combat lifestyle diseases along with consolidating the standards of internal medicine in India. With the progress we made in childhood vaccination, we can learn lessons and apply them to adult vaccination as well with the help of ACP India Charter.

With some of these lingering thoughts, I thank Prof. Anuj Maheshwari and team for this absolute honour and opportunity to communicate with you all. Remember, "What Is Planted In Each Soul Will Sprout" as said somewhere by my favourite philosopher, Rumi.

As Dean Ornish says, "Awareness Is The First Step In Healing!" – a key message for all healers of the world.

Warm regards,
Dr. Purvi Chawla
ACP India Chapter, Advisory Council

ACP India Chapter Volunteerism Cell Highlight

Winters can be harsh, especially in North India and for the homeless. With temperatures dropping to the single digit numbers, ACP India Chapter as part of Volunteerism initiated a Blanket Distribution Drive To The Homeless as a new year gift on 1 January, 2024. Families of ACP India Chapter members led by Governor, Prof. Anuj Maheshwari and other senior members came together and visited every nook and corner of the city for this noble deed.

ACP India Chapter – Scientific Highlights

In association with ACP India Chapter, DRWA organised a CME under the auspices of the outreach program at Sikkim on 12 January, 2024 from 5.30-8.30 pm. The scientific program was very comprehensive ranging from managing chronic pain to sarcopenic obesity and newer anti-diabetic agents like SGLT2i, GLP1RA and heart failure. We congratulate Dr. M.H. Sanwarwalla, President DRWA, Dr. Bijay Patni, Founder President DRWA and Dr. Supratik Bhattacharya, Secretary DRWA for such an academic treat in the presence of our Governor India Chapter, Prof. Anuj Maheshwari. The faculty was a stellar line-up sharing their expertise on experience on the myriad of topics.

Scientific Agenda

Welcome by Scientific Chairperson, Dr. Bijay Patni

ACP Symposium: (05:30 PM - 06:30 PM)
 Chairpersons: Dr. S N Adhikary, Dr. Goutam Banerjee, Dr. D D Basu, Dr. P C Barua
 Speakers: (15 min each)
 1) Dr. Arvind Gupta - Sarcopenic Obesity
 2) Dr. Anuj Maheshwari - Management of chronic pain: an overview
 3) Dr. Smitha Bharti - OA and Diabetes
 4) Dr. Narasingh Verma - Chronopharmacology

Panel Discussion on Heart Failure: (06:30 PM - 07:30 PM)
 Chairpersons: Dr. Fanchali Roy, Dr. Meenakshi Mishra, Dr. Renu Verma
 Moderator: Dr. N K Singh
 Panelists: (10 min each):
 1) Dr. Supratik Bhattacharya - D/d of shortness of breath
 2) Dr. Mohsin Akram - Investigation of the Case
 3) Dr. R L Joshi - Non pharmacological management of heart failure
 4) Dr. Firdous Sheikh - Overview of pharmacological management of heart failure

Panel discussion on Newer Hypoglycemics agents: (07:10 PM - 07:40 PM)
 Chairperson: Dr. S S Poddar
 Moderator: Dr. Amit Kumar Dey
 Panelists: (7 min each)
 1) Dr. Partha Bhawan - Inaglimin
 2) Dr. Tamasach Bhattacharya - GIP & GLP1RA - Dual
 3) Dr. Malay Kanti Singh - GLP1RA
 4) Dr. Meenakshi Mishra - SGLT2 Inhibitors

Note of Thanks by President Dr. M H Sanwarwalla

A fantastic academic endeavour was the practical Thyroid Update 2024 – An ACP India Chapter Initiative

Dr. Ajoy Tewari, Lucknow was the program co-ordinator! Sir, you are being highly appreciated for this simple yet profound clinical program of great significance to the attending physician community, especially with two astute speakers, Prof. Narsingh Verma, KGMU, Lucknow talking about TFT interpretation and Prof. Anuj Maheshwari, HIMS, Ataria, Lucknow speaking on the management of subclinical hypothyroidism – a clinician's perspective, on the 17 February, 2024 from 8.30-9.30 pm

ACP India Chapter – ACP-GIMS Gastro Conclave (8 February, 2024)

ACP India Chapter in collaboration with the Government Institute of Medical Sciences (GIMS), Greater Noida organised an informative Gastro Conclave on 8 February, 2024 at GIMS. We congratulate Dr. Saurabh Srivastava and Dr. Payal Jain for planning an excellent event. It was well-attended and appreciated by the Director, Dean and CMS of GIMS along with the teachers and resident doctors, exemplifying a good scientific meet

Our Governor of ACP India Chapter wishes all a Happy Women's Day that was celebrated globally on 8 March, 2024. He continues to emphasise on empowering women to take care of their health and well-being and recommends the spotlight on educating every woman in order to create a positive ripple effect for the health of the entire household

ACP India Case files

ACP India Chapter – ACP India Case Files

A delightful, interactive programme of great clinical value, especially for the early career physicians as it successfully addresses a variety of topics with indepth discussion on the clinical presentations, nuances, investigations and management. This training for physicians is unparalleled and the commitment of Dr. Amit Gupta, Noida and Dr. Preeti Singh Dhoat, Bhatinda as national co-ordinators of this program is praiseworthy. Our Governor, Prof. Anuj Maheshwari always ensures that there are expert clinicians involved in the case discussions with pearls of clinical wisdom shared. After all, medicine is not just science but also an art.

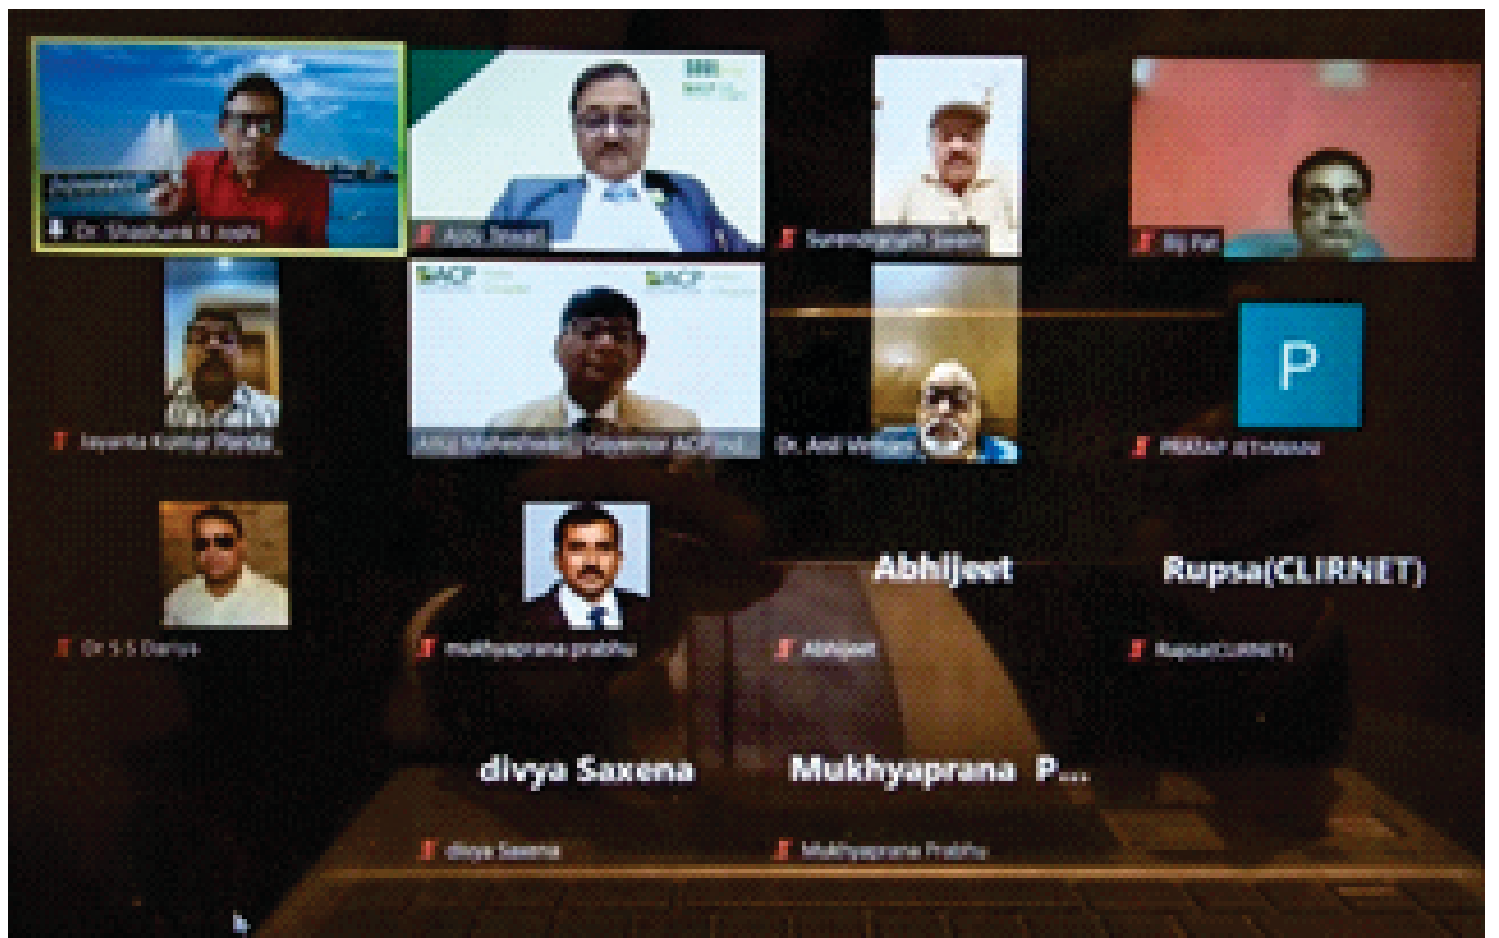

Flavours of ACP India Chapter - Soul Curry

Welcome to the "Well-Being Lounge of the ACP India Chapter!" Allow us to serve you some refreshing Soul Curry!

Indeed food for the soul, this fascinating series, is aimed at every physician in this vast field of medicine to instil and inspire the values of empathy, well-being and fostering a culture of collaborations and growth. With accomplished speakers of international repute like Dr. Mukta Panda, USA, Prof. Shashank Joshi from India and Dr. Tammy Lin and Dr. Vineet Gupta from the US, this program has been well-attended with great lessons to learn for happiness emanates from the soul, the fountainhead of supreme happiness "chidananda". The brainchild of ACP India Chapter Governor, Prof Anuj Maheshwari and Joint Secretary and National Coordinator of Soul Curry, Dr. Ajay Tewari, it is seamlessly ongoing with ever-evolving discussions.

Update Yourself - AI in Human Healthcare

A novel and well-received, educational web series for healthcare professionals by ACP India Chapter took off in the month of January 2024. Three modules in the form of tutorials have been conducted thus far with great success, tackling right from the basics of AI to real life applications, with national and international speakers. We congratulate Dr. Amit Dey from Kolkata and Dr. Alok Modi from Mumbai for initiating this series and moving forward with great strides under the supervision of Dr. S. V. Kulkarni from Navi Mumbai, helping to keep our physicians up to date with the latest developments. With these tutorials, keep the confusion with the AI jargons at bay...

AI in Human Health Educational webseries for healthcare professionals by ACP India Chapter

Module 1
4th January 2024
09:00 pm - 10:00 pm

Introductory Module

Chair
Dr. Anuj Maheswari
Secretary, ACP India Chapter

Speakers:
 Dr. SV Kulkarni (Mumbai): Topic: Understanding the Basics of AI
 Dr. Alok Modi (Thane): Topic: Applications of AI Algorithms in Healthcare
 Dr. Amit Kumar Dey (Kolkata): Topic: Overview of Deep Learning (CNN, RNN, LSTM) in Healthcare

ROYAL FREE HOSPITAL'S AI SYSTEM FOR ACUTE KIDNEY INJURY (AKI) DIAGNOSIS

- The system is based on a deep learning model that analyzes patient data to predict AKI risk.
- The system is designed to be used by clinicians to identify patients at risk of AKI.
- The system is designed to be used by clinicians to identify patients at risk of AKI.
- The system is designed to be used by clinicians to identify patients at risk of AKI.

AI is going beyond conventional medical science wisdom.

TEAM INDIA FOR OSLER'S CUP

HOLD YOUR BREATH, LADIES & GENTLEMEN!

The ACP history awaits the next set of smartest minds and brightest resident doctors from around the world as they roll up their sleeves and get ready to compete at the annual ACP Doctor's Dilemma and aspire to win the coveted "Osler Cup!"

Team India is going strong with three of our sharpest residents, Dr. Eshan Taneja, Dr. Nilashish Dutta and Dr. Aaditya Sreehari, handpicked and trained to represent the ACP India Chapter at the Boston annual ACP Meeting along with mentor, Dr. Mukhyaprana Prabhu. We also thank ACP India Governor Elect Designee, Dr. Swati Srivastava and advisory council member, Dr. Anchin Kaliya who helped groom these young doctors for the competitive Doctor's Dilemma leading to Osler's cup.

ACP India Chapter Village Outreach Program

We congratulate Dr. Abhijeet Kumar, ACP member, on his dedicated efforts in undertaking screening and awareness activities for anemia, diabetes, obesity and other metabolic disorders in the villages of Bihar, one of the third largest populated states of India under the Village Outreach Program of the ACP India Chapter

Many congratulations to Dr. Bijay Patni, Advisory Council Member, ACP India Chapter, who has initiated free screening and diabetes education camps in various rural regions of West Bengal, Sikkim and parts of the North East of India, often where the population has limited access to healthcare initiatives.

We wish many more members of the ACP India Chapter to undertake activities, especially under the Village Outreach Program and contribute more to this much-needed initiative

ACP India Chapter - Inviting Our New Fellows (FACP) from Jan-Mar 2024

Region	Name	Member Class
IND	Ravindra Bhardwaj	Fellow
IND	Smitha Bhat	Fellow

ACP India Chapter - Inviting you all to nominate yourself for the Awards

Indeed, it is time for the much awaited Chapter Awards. Don't miss this golden opportunity to apply for this prestigious recognition by the ACP India Chapter. There's something in it for all the good work being done in the field of medicine!!

Please note that one form should be submitted for each individual award given.

The following are the different categories for nomination:

Name of the Award
Early Career Physician Award
Early Career Physician Award
Rising Start Early Career Physician Award
Hospitalist of the Year Award
Humanitarian of the Year
ACP India Internist Award
ACP India Chapter Internist Award For Advance Career Physicians
Life Time Achievement Award
Researcher of the Year Award
Medical Student of the Year Award
Resident of the Year Award
Resident Recognition Award for the Leadership
Teacher of the Year Award
Chapter Advocacy Award
India Chapter Leadership Award
ACP India Chapter Clinical Practice Award
ACP Community Teaching Award
Distinguished Mentor Award
Distinguished Teacher Award
ACP India Educator Award
Fostering Diversity Award
Wellness Award
Women Physician of the Year Award
Volunteer Faculty of the Year Award
Governor's Recognition Award
ACP India Chapter Excellence Award
Award for outstanding woman contributing in Women's Health
ACP India Women Educator Award
Award for outstanding Man contribution in Women's Health
Scientist of the Year Award
Dr. A. R. Sircar Best Thesis Award 2024
Dr. William Osler Publication of the year Award 2024

Chapter Reception

Dear Colleague,

It's a great pleasure to invite you to ACP India Chapter Reception being organised during American College of Physician's (ACP) Internal Medicine Meeting 2024 in Boston.

Venue: Griffin, Harbor Wing, Mezzanine Level

Friday 19th April 2024, 7:00pm to 9:30pm

With best Wishes

Prof Anuj Maheshwari
Governor

The host, ACP India Governor, Prof. Anuj Maheshwari warmly invites you to the India Chapter Reception to be held on 19 April, 2024 from 7-9.30 pm, during the upcoming annual meeting of ACP at Boston, MA, USA from 18-20 April, 2024.

He wishes one and all planning to attend this premier Internal Medicine meeting at Boston, USA, a successful and interactive conference. This brings with it the opportunity to soak in the quaint, gorgeous old-monuments of Boston interspersed with the fascinating, modern high-rises enriching the cultural heritage of this beautiful city.

It is heartening to see that there are 52 members from the India Chapter registered for this prestigious meeting to be held at Boston, MA with 48 members registered for physical attendance and 4 members registered for virtual participation. Of the total registered, 1 individual is under the Master category, 8 individuals are registered Fellows, 29 individuals are under the Medical Student category, 4 individuals are under the Members' category with 3 individuals under the Resident/Fellow Member category and 6 individuals under the Transitional Medical Graduate Member category.
