CLINICAL GUIDELINE

## **Diagnosis of Stable Ischemic Heart Disease: Summary of a Clinical Practice Guideline From the American College of Physicians/American College of Cardiology Foundation/American Heart Association/American Association for Thoracic Surgery/Preventive Cardiovascular Nurses Association/Society of Thoracic Surgeons**

The American College of Physicians developed this guideline summary in collaboration with 5 other organizations to help clinicians diagnose known or suspected stable ischemic heart disease (SIHD). The guideline includes recommendations that address the initial diagnosis of the patient who might have SIHD, cardiac stress testing to assess the risk for death or myocardial infarction in patients diagnosed with SIHD, and coronary angiography for risk assessment.
