

## **Health Information Privacy, Protection, and Use in the Expanding Digital Health Ecosystem: A Position Paper of the American College of Physicians (2021)**

A position paper from the American College of Physicians that seeks to advance the existing health information privacy framework and expand the similar privacy guardrails that physicians have practiced for decades. The position paper offers principles and evidence-based recommendations to help improve the privacy, protection, and use of health information technology in the constantly evolving digital landscape.
