

Policy Recommendations for Public Health Plans to Stem the Escalating Costs of Prescription Drugs: A Position Paper From the American College of Physicians (2019)

A position paper from the American College of Physicians position examines the rising cost of prescription drugs and the impact on patients and physicians. The position paper offers a series of recommendations aimed at improving transparency and addresses issues in public health plans, including the Medicare and Medicaid programs, which can add costs to the health care system and increase expenses for patients.
