MESSAGE FROM GOVERNOR

DR. ANUJ MAHESHWARI
MBBS, MD, FACP

Dear Colleagues,

Greetings for the new year 2025! Hope it may be brighter & healthier for all of us. I believe most of us ended the previous year in a feeling of satisfaction and a lot of pleasant memories to treasure. Our chapter has won the Gold Excellence Award again in the past year. Gradually, I am completing my inning in ACP India Chapter as Governor. Governor Elect Dr. Swati Srivastava is ready to take over the chapter responsibility. On 5th April 2025, she will take the charge of Governor at New Orleans. I believe our journey for next 4 years with her shall be very exciting.

Election of New Advisory Council is on the cards to begin somewhere in mid Feb 2025. I appeal you all to participate. It is very much needed to strengthen the chapter. Myself & our new team shall like to have a critical appraisal of all scientific activities done physically or online, like annual conference, Doctor's Dilemma, ACP India case file series, Artificial Intelligence in Human Health etc. We also need your opinion on our public outreach programs like IRISH project on women's health which we had in collaboration with Rotary India for year long.

This year again our new team shall plan to outreach those areas where ACP presence is less in terms of membership. We are planning outreach educational CMEs as well as public educational activities in such areas. We are also planning to have public health awareness activities during Mahakumbh 2025- the great religious gathering in India..

Once again I wish to encourage all members to maintain their membership without break to remain on board for various activities of ACP India Chapter. Apply for FACP if you have completed your 3 years being a member in continuation. Apply for various awards of ACP India chapter. Eligible candidates can apply for MACP.

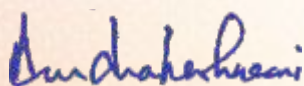

Get yourself registered for New Orleans annual conference of ACP. You can take advantage of the group registration. Motivate others doctors in your area to become a member of ACP. Before I close this, I must mention a few outstanding workers of ACP India Chapter with lot of appreciation: Dr Preeti Singh Dhoat from Bhatinda, Dr Abhijeet Kumar from Patna, Dr Abhishek Srivastava from Jabalpur, Dr SV Kulkarni and Dr Alok Modi both from Mumbai.

With lot of best wishes, looking forward to see you at New Orleans.

Dr Anuj Maheshwari,

Governor,

ACP India Chapter

FROM THE EDITOR'S DESK

DR. ANCHIN KALIA

DNB (MED), FICP, FRCP, FIMSA, FDI

"The best way to predict the future is to create it." – Abraham Lincoln

I am deeply honored to have the opportunity to contribute to this editorial, reflecting on the achievements and future direction of our esteemed organization. As we embark on a new year, I would like to pause and reflect on our chapter's significant accomplishments, and chart a decisive course for the future. The American College of Physicians (ACP) India Chapter has established itself as a beacon of excellence in the field of Internal Medicine across the subcontinent.

The ACP Conference in Lucknow in August 2024 was a landmark event, drawing over 1,000 participants from India and international delegates, fostering vital discussions on healthcare challenges and innovations in Internal Medicine.

As we celebrate this monumental achievement, I am filled with pride in acknowledging the leadership within our chapter. I extend heartfelt congratulations to our esteemed Governor, Prof. Anuj Maheshwari, MBBS, MD, FACP on his election as the President of the RSSDI. This is a well-deserved recognition of his exceptional contributions to medicine, and we are confident that under his leadership, the field will continue to thrive. I would also like to congratulate Dr. Swati Srivastava, MBBS, MD, FACP, who has been elected as the new India Chapter Governor-elect (GE). Dr. Srivastava brings a wealth of experience and vision to this role, and we look forward to the guidance and leadership she will provide in steering our chapter toward even greater success in the coming years.

Looking ahead, the ACP India Chapter has identified several key areas of focus that will guide our work throughout the year. We will focus our efforts on expanding educational outreach, building research collaborations, and strengthening public health initiatives to improve healthcare outcomes. The coming year presents exciting opportunities for growth, collaboration, and innovation. Together, we will continue to advance the field of Internal Medicine, shaping the future of healthcare in India and beyond.

Warm Regards,
Dr Anchin Kalia

AI in Human Health: Educational Web Series for Healthcare Professionals Module 9 (15th October 2024 09:00 pm (IST) onwards)

This session explored the latest advancements in artificial intelligence and its applications in healthcare, enhancing clinical decision-making, diagnostics, and patient care. Aimed at healthcare professionals, this module provided valuable insights into AI-driven innovations and their impact on modern medicine. It was an excellent opportunity to stay updated on the future of healthcare technology!

ACP India Chapter Symposium on CRM ACP INDIA CHAPTER organized a Symposium on CRM (Cardio Renal Metabolic Strategy) on 18th Dec 2024 at Peerless Inn , Kolkata

The ACP India Chapter organized a symposium on Cardio-Renal-Metabolic (CRM) Strategy, focusing on a comprehensive approach to hyponatremia and the cardio-renal-metabolic axis. Experts discussed the integration of exercise, nutrition, and behaviour therapy in managing metabolic disorders. The session also highlighted epidemiological diversities and management challenges in Type 2 Diabetes Mellitus, offering valuable insights for clinical practice.
