- [Final Notes](#)

Governor's Message

Dear Friends,

I hope that you are all safe and well. I want to congratulate our medical school graduates and residents. It is an exciting time for everyone.

Our Chapter has been very busy this year with ACP CA -Sacramento and ACP Washington Leadership Day where we lobbied our lawmakers on issues that affect Physician and Patients. Additionally, we had a Diversity Townhall moderated by Dr. Lynnetta Skoretz and Ron McCowen, who co-Chair our Diversity, Equity and Inclusion Committee. We also held a June Wellness Webinar by our Wellness Champion, Dr. Maher Roman

As California opens, hopefully everyone will get a little time with family and friends.

Continue to do amazing things!

A handwritten signature in blue ink that reads "DK".

Daniel I. Kim, MD, MBA, FACP
ACP Governor R2 (OC and IE)

ACP's Patient and Interprofessional Partnership Initiative Offers New Toolkits

New Team-Based
Care Resources
Help Clinicians,
Patients, and
Caregivers.

[ACP's Patient and Interprofessional Partnership Initiative](#) works to promote high-quality education that incorporates interprofessional, interdisciplinary, and patient perspectives and promotes partnership with all members of the health care team. This initiative has recently developed patient-centered, interprofessional education resources for internists, their patients, and their clinical teams in the form of two new educational toolkits:

- [Team-Based Care Toolkit](#): This toolkit was developed collaboratively to share best practices and examples of successful team-based clinical care models that include internal medicine physicians working with nurse practitioners, physician associates (assistants), and other members of the health care team.
- [Toolkit for Physicians and Caregivers on Informal Caregiving](#): This toolkit offers training and resources to help clinicians better partner with caregivers to improve health outcomes for both patients and their caregivers.

More information on the initiative and available resources can be found on ACP's [Patient and Interprofessional Education](#) page.
