## 2017 Chapter Excellence Award

Congratulations to the Florida Chapter for receiving the 2017 Chapter Excellence Award! The award recognizes chapters which successfully meet the standards for managing a chapter. In order to achieve the Chapter Excellence Award, chapters must meet all basic criteria and seven optional criteria. Criteria include such activities as formulating an effective Governor’s Council and committees, communicating frequently with membership, providing educational opportunities, recruiting and advancing members and celebrating membership through local awards. Special thanks is extended to those chapter members who assisted in all of these endeavors! For their hard work and dedication, we received this award.
