

HJM&PH

HAWAI'I JOURNAL OF MEDICINE & PUBLIC HEALTH

Volume 76, No. 4

April 2017 Issue

In the April 2017 edition of *HJM&PH*, we feature a cost-benefit analysis of using statins in Hawai'i; a study examining the long-term outcome of managing the posterior capsule in pseudophakic children; and a case report associating the *Salmonella muenchen* serovar with rhabdomyolysis and myocarditis. In the *Medical School Hotline*, we highlight efforts to reform and incorporate American medical education methodologies into the traditional Japanese system.

About Us

HJM&PH is a peer-reviewed, fully-indexed, online journal that is distributed to over 11,000 individuals throughout Hawai'i and the Pacific. The Journal is a joint effort between the Hawai'i Department of Health (DOH) and the University Clinical, Education, & Research Associates (UCERA) at the John A. Burns School of Medicine (JABSOM).
