HJM&PH

HAWAI‘I JOURNAL OF MEDICINE & PUBLIC HEALTH

Volume 78, No. 5

May 2019 Issue

In the May 2019 issue of the HJM&PH, we feature an article on intranasal corticosteroids and central serous chorioretinopathy, a report on *Staphylococcus aureus* antibiotic susceptibilities in infections in an outpatient dermatology office on O‘ahu, and an article on testing a talk story intervention to create supportive and safe violence-free communities for women. In the Insights in Public Health column, learn about the University of Hawai‘i West Oahu undergraduate Health Science program. In the Scripts column, read about an effort to improve the accuracy of patient medication lists by performing medication reconciliation by phone prior to appointments. Finally, in the Hawai‘i Journal Watch, we feature highlights of recent research from the University of Hawai‘i and the Hawai‘i State Department of Health.

About Us

HJM&PH is a peer-reviewed, fully-indexed, online journal that is distributed to over 11,000 individuals throughout Hawai‘i and the Pacific. The Journal is a joint effort between the Hawai‘i Department of Health (DOH) and the University Health Partners of Hawai‘i (formerly University Clinical, Education, & Research Associates, UCERA) at the John A. Burns School of Medicine (JABSOM).
