Beginning **July 1, 2018**:

- **Prescribers must**, with some exceptions, query and review their patient's PDMP data prior to initially prescribing an opioid or benzodiazepine **AND** at least every 90 days thereafter as long as the course of treatment continues to include prescribing an opioid or benzodiazepine. Prescribers must also document PDMP data query and review in the patient's medical record.
- **Pharmacists must** query and review patient PDMP data prior to dispensing **ANY** CDS drug if they have a reasonable belief that a patient is seeking the drug for any purpose other than the treatment of an existing medical condition.

3. CDS Prescribers & Pharmacists May Delegate PDMP Data Access

Prescribers and pharmacists may delegate healthcare staff to obtain CRISP user accounts and query PDMP data on their behalf.
