

**KAREN****ADAMS**

MD

Talk Title **Managing Menopause: Everything You Need To Know In 2022**

Objective: Understand important guidelines regarding HT use in various clinical scenarios (perimenopause, menopause, POI, BRCA+, PMI, GSM/VVA).

Objective: Understand the importance of individualizing care for menopausal patients, rather than a one-size-fits-all approach.

**TOM****CHAU**

MD, MBA

Talk Title **Tips To Make You And Your Patients Happier With Their Blood Pressure**

Objective: Understand proper blood pressure measurement.  
Identify ways to reduce swelling from calcium-channel blockers.

Objective: Understand role of spironolactone and eplerenone as fourth line antihypertensives.

**EHRINE****DELORIEA**

MD, MPH

Talk Title **Updates In Hospital Medicine**

Objective: Understand recent literature to guide current practices in Hospital Medicine.

Objective: Learn recent guidelines as a means to affirm or refine approaches to care of the hospitalized patient.

**DANIEL****FISCHER**

MD

Talk Title **Refractory Depression**

Objective: Learn the history, differential diagnosis and conventional treatment options for treatment resistant depression encountered in clinical outpatient settings.

Objective: Understand interventional treatment modalities with FDA approval for treatment resistant depression including transcranial magnetic stimulation.

**ABIGAIL****FRYE**

PharmD, BCACP

Talk Title **Update On GLP-1 And SGL-2 Agents.**

Objective: Analyze the available evidence regarding the safety and efficacy of the GLP-1 RAs and SGLT2 inhibitors, with focus on cardiovascular and renal outcomes.

Objective: Identify the appropriate places in therapy for the GLP-1 RAs and the SGLT2 inhibitors.

**BRADFORD**

**GLAVAN**

MD

Talk Title ***Asthma And COPD: What's New in 2022***

Objective: Be able to apply guideline-based diagnostic and 1st line treatment algorithm for asthma and COPD.

Objective: Know which patients with asthma and COPD to refer for complex management and advanced therapies.

**MATTHEW**

**HOLLON**

MD, MPH, FACP

Talk Title ***Planetary Health And Environmental Justice: The Physician Role In The 21st Century***

Objective: Learn key principals of planetary health and provide details of human health impacts and their disproportionate consequences for vulnerable populations.

Objective: Act on opportunities specific to the physician role to address global environmental change as a public health and environmental justice problem.

**KATIE**

**IOSSI**

MD, MPH, FACP

Talk Title ***Updates In Outpatient Medicine***

Objective: Review recent relevant literature on topics in outpatient Internal Medicine.

Objective: Learn how to consider these studies might change your practice.

**CLAIRE**

**KASSAKIAN**

MD

Talk Title ***Managing Stage IV CKD - What Internists Need To Know***

Objective: Learn updated guidelines and mechanisms of action for hypertension and volume management in CKD.

Objective: Understand clinical considerations for approaching the future: renal replacement therapy versus palliative planning for high quality life and death.

**ABIGAIL**

**LENHART**

MD

Talk Title ***Wellness-Addressing Systems Issues In A Time Of Scarcity***

Objective: Learn strategies for addressing organizational and systems issues with limited resources.

Objective:

**TANVI**

**MUKUNDAN**

MD

Talk Title **Sleep Disorders For Primary Care**

Objective: Describe difference between sleepiness and fatigue, and the risk factor for obstructive sleep apnea.

Objective: Learn of devices to treat sleep apnea, and diagnostic criteria for restless leg syndrome.

**FAREHA**

**NAWAZ**

MD, FNKF, FASN

Talk Title **Wellness: Post-Traumatic Growth: Resilience, Recover, & Reconfiguration.**

Objective: Learn changed philosophy of life & work - priorities, appreciation, and spirituality.

Objective: Learn rumination--cognitive inquiry leading to preparedness and resilience.

**PRIYA**

**RADHAKRISHNAN**

MD, FACP

Talk Title **Food Is Medicine - Designing A System-Wide Framework For Assessing Social Determinants Of Health**

Objective: Learn about the impact of Social Determinants Of Health On Health Care Outcomes.

Objective: Understand the interplay between health policy, regulation, and impact of a health system initiative to address SDOH.

**JEFFREY**

**ROBINSON**

MD

Talk Title **Approach To Diagnosing And Treating Pulmonary Hypertension**

Objective: Understand the modern diagnostic process for pulmonary hypertension.

Objective: Learn how to utilize a risk-based approach to therapy selection.

**ALEXANDER**

**SCHAFIR**

MD, FACP

Talk Title **Thieves' Market**

Objective: Win and nurture your inner Nerd.

Objective: Experience Internal-Medicine fun with (and at the expense of) your peers.

**SEAN**

**STANLEY**

MD

Talk Title ***Adult ADHD***

**Objective:** Identify the various reasons for inattention in adults and why it is so important to assess for these.

**Objective:** Be able to outline a basic approach to and simple tools to use to determine if an adult has the neurodevelopmental disorder of ADHD and be able to describe

**AMY**

**WANG**

MD, FASGE

Talk Title ***A Review On Common Lower GI Dilemmas***

**Objective:** Understand the most up-to-date guidelines for managing diverticulitis, IBS, and chronic constipation.

**Objective:** Recognize the role the PCP and Gastroenterologist play in management of diverticulitis. IBS. and chronic constipation.
