The State Health Policy Webinar is a forum to help College members, as well as ACP Governors, Governors-elect, Chapter Health and Public Policy Committee (HPPC) members, and Chapter staff learn about key health policy issues in their states and across the country, and to discuss common concerns. The webinar provides the opportunity to share ideas on how to strengthen chapter advocacy on the issues that come up in states across the country, and to develop effective strategies to help lead to policy change. This webinar is also intended to be timely and helpful, considering the myriad of issues impacting internal medicine physicians and their patients.

#### Rituals & Traditions Webinars

Join the Tennessee, North Carolina, Georgia and SoCal 3 ACP Chapters as they explore how community is co-created - not just through what we do, but through how we show up for one another. You are invited to a collaborative gathering that honors the diverse ways we connect, reflect, and grow together.

In this inter-chapter experience, we will explore how rituals - such as those found in food, storytelling, and celebrations - provide insight into the values and experiences that shape our lives. We will create space for open, respectful conversations where every voice is valued. We will build trust, spark a connection, and invite thoughtful and meaningful exchange.

Guided by a five-part framework centered around TRUST, our journey will move through the following themes:

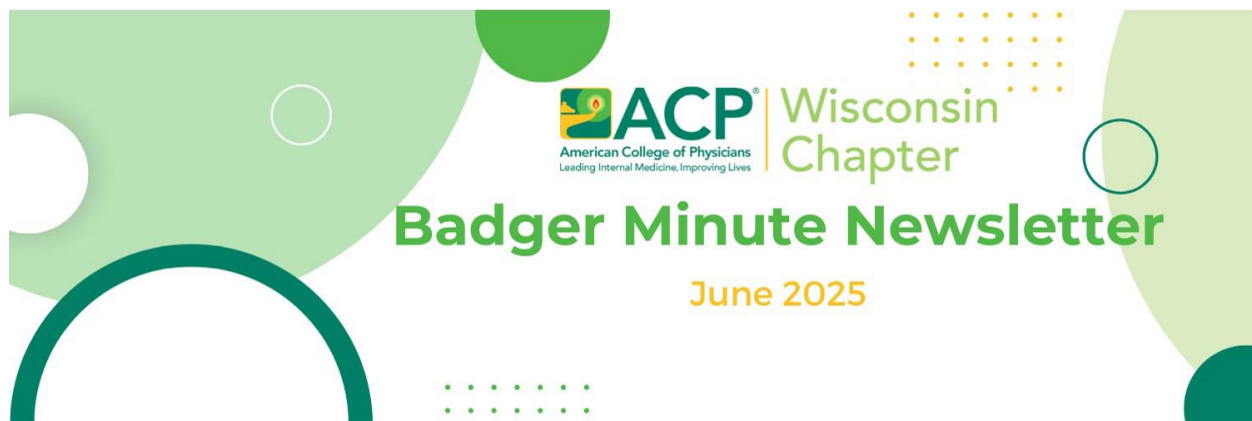

- Traditions
- Rituals
- Understanding
- Shared Experiences
- Togetherness

Each step invites us to reflect on where we've come from and to imagine what we can build together.

**Registration for the August session will open soon.**
