

**III Congreso Internacional de Medicina Interna – Clínica Médica
Society of Internal Medicine of Buenos Aires (SMIBA)
October 27–29, 2025
Buenos Aires, Argentina
Global Ambassador reflections by: Luis Campos, MD, MSc, FEFIM, FACP (Hon)**

I was honored to serve as ACP Global Ambassador at the III International Congress of Internal Medicine in Buenos Aires, Argentina. The meeting was held at the Argentine Medical Association headquarters, and there were about 2,000 meeting attendees (in person and virtual). During the meeting, I gave two presentations: “Changes Impact on Health” and “Art as Therapy.” Overall, they were very well received and encouraged lots of discussion. Both topics sparked a lot of interest, and people felt motivated to develop actions in these areas.

I had a wonderful experience in Buenos Aires. I had many opportunities to interact with the leaders of SMIBA and also with presidents of internal medicine societies of other South American countries. The hosts were very generous to the international speakers and invited us to attend the opera Salomé by Richard Strauss in Teatro Colón one evening.

Dr. Campos with SMIBA leadership and representatives of other Latin American internal medicine societies

Dr. Campos
