ACP Patients Before Paperwork Initiative

What is Patients before Paperwork?

ACP's Patients Before Paperwork initiative's goal is to reinvigorate the patient-physician relationship by reducing administrative complexities and eliminating unessential tasks that detract from patient care and contribute to physician burnout.

Policy Development

ACP policies provide a cohesive framework for identifying and evaluating administrative tasks, and offer detailed recommendations to analyze administrative tasks to determine whether they need to be challenged, revised, or eliminated entirely.

Tools You Can Use

Resources and tools help physicians put ACP's policies into practice. They include resources that assess practice efficiencies and resources on physician well-being and professional satisfaction.

Collaborating with Stakeholders

ACP engages with key regulatory agencies and stakeholders to help streamline regulations imposed by insurers, federal regulators and other external entities to reduce administrative burdens for physicians.

Advocating for Internists

ACP has long identified reducing administrative complexities or burdens as a priority. ACP works to advocate for changes in our health care system that simplify excessive administrative burdens that put a strain on physicians and patient care.
