Will there be a virtual ePoster competition?

No, the poster competitions will take place at the Internal Medicine Meeting in Boston, MA. At this time, we will not offer the opportunity to present virtually.

What is needed for the poster competitions?

You must bring a paper poster to the meeting. Poster boards will be shared among presenters. The overall board measures 8 feet wide by 4 feet in length. Each presenter will be allocated a space of 4 feet wide by 4 feet in length. Presenters will be required to adhere to these limits. No exceptions can be made. It is suggested that the final poster size be slightly smaller than the allocated board dimensions. A poster of 3 ½ feet wide by 3 ½ feet in length will fit best on the allocated board space.

In addition to the paper poster, we will require that you create an ePoster so that all posters can be viewed throughout the entire meeting. The ePoster should consist of **1 slide** formatted as a poster and can be easily made using Microsoft PowerPoint and should include a voice-over. ***ePosters with voice-overs should not exceed 100 MB with a 4-minute time limit. The system will not allow you to upload anything the exceeds the suggested time limit or file size.***

How do I create a Voice-over PPT presentation?

If you are creating your ePoster on a Windows device, see the link for Creating a Voice-Over PowerPoint Presentation.

If you are creating your ePoster on a MacBook, use these instructions:

On many MacBooks, PowerPoint will not save as an MP4 with audio. Here are the steps MacBook users need to follow to save their poster presentations as MP4's.

1. Do not use PowerPoint to record your voice
2. Instead, use QuickTime player to make a screen recording. <https://support.apple.com/en-us/HT208721>
