INTERNAL MEDICINE

Your global community,
from training
through retirement

Who We Are

For more than 100 years, ACP has represented the house of internal medicine.

Although we may practice in widely different settings, focus our expertise in a specific subspecialty, or take on different research or administrative activities, we are all internists. Our shared core training and values link each of us together.

As internal medicine physicians, and as a group, we are part of something bigger.

We comprise 152,000 members worldwide and are led by physicians who, like you, are lifelong practitioners and learners who strive to deliver excellent patient care and exemplify leadership in everything they do.

We welcome you to our community and your professional home.

Support Throughout Your Career

From medical school and residency through active practice and retirement, we are committed to helping one another succeed.

- Networking opportunities with like-minded colleagues locally and across the globe
- Trusted continuing medical education resources spanning the spectrum of internal medicine
- Highly respected, evidence-based clinical guidelines and recommendations
- Resources to help internists practice high value care and sharpen their diagnostic skills
- Programs for practice assessment and support
- Tools to support physician well-being
- Leadership development
- Recognition of accomplishment in internal medicine

Update Your Knowledge

MKSAP® 18—Reinforce your knowledge with the most comprehensive internal medicine self-assessment program, offering 11 in-depth chapters and 1,200+ multiple-choice questions with critiques and key points

Internal Medicine Meeting—Connect with colleagues from around the globe and across all levels of training and practice at our annual conference; attend clinical updates, sessions on ethics, social engagements, and celebrations of professional accomplishments

Online Learning Center—Access hundreds of online learning activities help keep your knowledge fresh, easily searchable by topic

Annals Virtual Patients—Simulate the clinical experience by evaluating, diagnosing, and treating a virtual patient

IM Essentials—Prepare medical students for internal medicine rotations with this resource, including 500 questions and 1,000 digital flashcards

Ultrasound Session at Waxman Center at Internal Medicine Meeting 2018

Stay Up-to-Date

Annals of Internal Medicine—The most influential and widely cited journal focused on internal medicine and its subspecialties, with new issues available online every other week

Bonus Content: Access exclusive multimedia resources, including:

Beyond the Guidelines—A series of patient interviews and debates by experts about real clinical scenarios that don't fit traditional guidelines

In the Clinic—In-depth reviews of common clinical conditions, including evidence-based answers to frequently asked questions from screening to follow-up

ACP Journal Club®—Identifies the best internal medicine evidence from 120+ clinical journals along with expertly balanced yet brief reviews and analysis

ACP International Newsletter—ACP's bi-monthly e-newsletter provides a global perspective on internal medicine news and ACP membership

ACP Internist Weekly—ACP's weekly e-newsletter focuses on topical information within the practice of medicine as well as news and information from ACP

ACP JournalWise®—Get automatic, mobile-friendly alerts from more than 120 medical journals based on your preferences (specialty, disease, journal, etc.) and your schedule

Annals of Internal Medicine®

In the Clinic®

Influenza

Influenza is an acute viral respiratory disease that affects persons of all ages and is associated with millions of medical visits, hundreds of thousands of hospitalizations, and thousands of deaths during annual winter epidemics of variable severity in the United States. Elderly persons have the highest influenza-associated hospitalization and mortality rates. The primary method of prevention is annual vaccination. Early antiviral treatment has the greatest clinical benefit; otherwise, management includes adherence to recommended infection prevention and control measures as well as supportive care of complications.

Treat Patients Effectively

Clinical Support

Clinical Guidelines and Recommendations—Our unbiased, evidence-based guidelines are available online or with our mobile app

DynaMed Plus®—Use the most current, evidence-based clinical decision support tool focused on internal medicine

Patient Education Materials—Search by topic online and download or order patient-friendly materials to guide your ongoing care discussions

High Value Care—Access learning resources, clinical guidelines, best practice advice, case studies, and patient resources to help you improve health, avoid harms, and eliminate wasteful practices

Annals for Hospitalists—Monthly e-mail alert highlighting *Annals* and ACP Journal Club content focused on inpatient medicine

Educator Support

Prepackaged curricula—Topics include Adult Immunization and Quality Improvement for Residents, Caring with Compassion for the Homeless, and High Value Care

Annals for Educators—Twice-monthly e-mail alert with tips for using selected *Annals* content in your teaching activities

MKSAP Residency Tracker—This MKSAP feature allows you to assign work and monitor learner progress at both the program and individual level

Teaching Medicine Series—Written by expert medical educators, this 7-book series covers the spectrum of academic medicine from theory and practice to teaching clinical reasoning.

Professional Development and Satisfaction

International Fellowship Exchange Program—Program for early- to mid-career physicians outside the United States and Canada to gain expertise in a focused area under the direction of senior faculty physicians with the intention to apply, utilize, and disseminate their knowledge to colleagues upon return to their home country

Abstract and Doctor's Dilemma™ Competitions—Local and national competitions provide opportunities for trainees and early-career physicians to compete, and for seasoned physicians to volunteer as reviewers

Physician Well-Being and Professional Satisfaction—ACP is committed to improving your professional life by providing education and resources to support well-being, reduce administrative burdens, improve practice efficiency, and help both you and your patients thrive.

ACP Fellowship

Achieving ACP Fellowship (FACP) is a mark of distinction for internists. It holds you to a higher standard of excellence. This honor is a peer-reviewed, peer-supported tradition that recognizes your dedication to internal medicine, your integrity as a physician, and your achievements above and beyond the practice of medicine. ACP Fellowship is the public reflection of your commitment to leading internal medicine and improving lives.

Connect with Your Colleagues

Regional Meetings—Be sure to meet with other local internists at the many worldwide meetings hosted by local ACP chapters or other regional or global internal medicine groups. ACP sends representatives to all of the meetings listed at acponline.org/intlmeetings

Member Forums—Engage with other ACP members online about a variety of topics, including clinical questions, practice concerns, and issues affecting subsets of our membership (i.e., women in medicine, early career physicians, etc.)

Member Categories, Requirements, and Dues

Depending on your professional status, ACP has a membership category that will align with your career path in internal medicine.

Member Class	Professional Status	Print and Online Membership Annual Dues*	Online-only Membership Annual Dues
Member, Fellow, or Master	Post-training Internists and Subspecialists	\$325.00	\$230/\$160/\$110**
Physician Affiliate	Post-training physicians not trained in internal medicine	N/A	\$230/\$160/\$110**
Resident/ Fellow	Residents and fellows-in-training in internal medicine, combined programs, or neurology	N/A	\$49.00
Medical Student	Medical students pursuing MD, DO, or equivalent	N/A	Free

* Canadian residents should include the appropriate GST/HST tax if choosing this option.

** Full Membership for physicians who have been certified in or hold a postgraduate degree in internal medicine, a combined internal medicine specialty, or neurology. Physician Affiliate membership for post-training physicians holding a current active medical license, who graduated from a medical school listed in The World Directory of Medical Schools, and who are not trained in internal medicine. Rate varies per country based on World Bank economic indicators. For dues rates in your country, please visit www.acponline.org/internationaldues. All rates are in US\$. Temporary transitional rates may apply to certain countries. ACP dues are subject to change annually. New member dues are prorated based on the month that membership begins.

"I have been a member of ACP since medical school. I absolutely love the ACP and feel they are committed to increasing the voice among minorities. I do not miss an opportunity to attend the annual meeting because it is simply the best meeting I have attended. I relish the opportunity to reunite with old colleagues and meet new ones. It is truly a high quality collegial learning experience."

–Leslie-Ann Williams, MD, FACP, St. Thomas

"Being an active member of ACP has had a fundamental impact on my career. It has changed my experience as a resident too. It gave me the opportunity to get to know ACP members and residents from different places and share the experiences, challenges, and joy of working in internal medicine."

–Gala Bozzano Vukić, MD, Chile
