

Dear All:

Hurricane Michael hit the Florida panhandle as a category 4 storm; we have been in contact with the Florida Governor whom so far has told us that South Florida did not suffer any significant damage and that he is still waiting to hear from the panhandle. For those in Alabama in the path inland of the storm I certainly hope you and your families are safe and that no damage has affected your home or offices. Please let us know if we can be of support.

Be safe,

Tavo Heudebert

Governor, AL ACP
