Dear ACP member:

It was great to meet and catch-up with many of you at the recent Georgia ACP chapter meeting! As I mentioned at the town-hall meeting, the Early Career Physician group would like to develop a mentorship program for our state given the increase in medical schools, residency programs, and practicing physicians coming to Georgia. Please consider filling out this brief form/survey (should take 2 min to complete), to highlight if you would be willing to serve as a mentor. We are looking for anyone who is practicing whether it is academic or private. We will try and match interests and location as much as possible. We hope to start pairing mentor-mentee around January 2019.
