Dear Arkansas ACP Members,

One of the major functions of the Arkansas Chapter of the American College of Physicians is to organize the annual statewide scientific meeting. Our goal is to have an annual meeting that is relevant to all members of the ACP in Arkansas. To help in this task, a brief survey has been created to better understand our members’ views and opinions regarding the annual meeting. Even if you have never attended a meeting of the Arkansas ACP Chapter before, your opinions will be very helpful. Thank you in advance for taking the time to complete this brief survey.
