Welcome to a Novel Type of Learning Experience!

Adventures in the Hx of Medicine 2012

Saturday
February 4, 2012
8:00AM-5:00PM

Saddleback Memorial Medical Center
24451 Health Center Drive
Laguna Hills, CA

By Southern California Chapter Region II of the

ACPR

Statement of Need

Younger physicians because of the restrictions of time and the increasing demands of medical school do not get the same exposure to the History of Medicine that older physicians have received. There is decreased value around historical academic scholarship in medicine that may be lost forever to the younger generation of physicians without an in-depth understanding of how medical knowledge, professionalism and ethics evolved from previous times. Without such, we are doomed to ignorance about the foundation of those experiences. An increased knowledge of how medical decisions have been made in the past facilitates the medical student and physician to make better decisions in the practice of medicine today.

Health care is constantly changing. It behooves the physician to understand current and future health policy. Medicare, Medicaid, the SGR, etc are in a state of constant flux. What will be practice of medicine in 5 years? These are questions that affect all physicians in their practice. This conference will address such issues and prepare them for the future.

CME Credit

The American College of Physicians is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Physicians designates this live activity for a maximum of 7.75 AMA PRA Category 1 credit(s). Physicians should claim only the credit commensurate with the extent of their participation in the activity.
