

Greetings this balmy month of April,

A very short Governor's update this month as we are preparing for the annual meeting next week. As the first year of my governorship comes to a close, I have had the chance to reflect on the intense advocacy in our state and nationally by our ACP members. As an organization, we are pushing back against administrative burdens that get in the way of our joy of practice, the future of healthcare for us as physicians and our patients, and bringing new scientific evidence to your "doorsteps" through monthly email updates.

I would like to thank all of you who have taken the time to email me personally on a topic or provide feedback on any of our events. Please continue to do so. If you are interested in becoming involved in the Governor's Council, our annual scientific meeting planning, identifying the unsung heroes of our state for awards- we are always recruiting for new viewpoints. Reach out and let me connect you to the correct committee.

Look for our biannual newsletter next month with listings of our new ACP fellows and CT award winners.

SAVE THE DATE!
