

Dear ACP Delaware Chapter,

Now more than ever the selflessness and commitment of all our physicians and clinicians in Delaware and around the world is on full display. We are face-to-face with a defining challenge for our profession, our society, and our time.

Thank you for all that you do each and every day for our individual patients as well as our larger community.

I have never been more proud to be your colleague.

Happy Doctor's Day!

Dan
