Georgia ACP Leadership Transition

The transition of leadership for Georgia ACP is official as of the business meeting at Internal Medicine 2019. Jacqueline Fincher, M.D., MACP, is the new ACP National President Elect and Waldon Garriss, M.D., MACP, is the new Georgia Chapter Governor. Walter Moore, M.D., MACP, finished his term as Georgia Chapter Governor, we thank him for his leadership over the last four years. The Georgia Chapter welcomes Dr. Garriss as Governor!

April 16th is National Healthcare Decisions Day

In recognition of National Healthcare Decisions Day, we would like to remind you that Medicare covers voluntary Advance Care Planning. Voluntary ACP is a face-to-face service between a physician (or other qualified health care professional) and a patient discussing advance directives with or without completing relevant legal forms. Medicare pays for ACP as a separate Part B medically necessary service or as an optional element of a patient’s Annual Wellness Visit.

Transition from Pediatric to Adult Health Care
ACP
Risk and vulnerability encompass many dimensions of the transition from adolescence to adulthood. Transition from pediatric, parent-supervised health care to more independent, patient-centered adult health care is no exception. This updated clinical report provides more practice-based quality improvement guidance on key elements of transition planning, transfer, and integration into adult care for all youth and young adults.
