

Georgia DPH Information

Attached is information for physicians from the Georgia Department of Public Health. DPH now has testing sites in all local health districts for COVID-19. The site set up/resources and schedules vary by location.

The screening criteria and updated online screening/ testing referral form are attached. The testing referral will be sent to the local health district and DPH will contact the patient for the local testing site. The criteria to evaluate if a patient should be tested is also attached. There is contact information for local health districts included.

Georgia DPH online access to COVID-19 testing by local health districts:

<https://sendss.state.ga.us/sendss/ncovspoc.assess>

Specimen Collection:

CDC guidance on sampling is here:

<https://www.cdc.gov/coronavirus/2019-ncov/lab/guidelines-clinical-specimens.html>

Attached are Georgia DPH Resources for you.

Please let the chapter know how we may help you with further resources or information that we may assist you with.

Please take good care and stay well.
