I.M. Still Making a Difference in Georgia

The Georgia Chapter of the ACP encourages its member to get involved in volunteer community service throughout the State in the months of November 2020 through February 2021. The Chapter seeks to identify ACP Georgia members as they serve others in their communities. This has been a difficult year for many, and the need is great in many communities. The Chapter would like to recognize members giving back in their communities with their volunteer work.

Specifically, the goal is to exceed 100 Chapter members in any type of volunteerism. This may be done by individuals or by groups. Group projects (with COVID-19 precautions) are especially desired as a way to make new connections and to build comradery among Chapter members.

Some examples of community service include:

- Working in free clinics
- Health fairs/screenings
- Food pantry work or donations
- Gift or Diaper drives to benefit the community
- Feeding the homeless
- Fund raising for community charities

Really, any beneficent activity you can imagine that would benefit your community is what is desired.

This year, we seek to expand our geographic reach to include some work in at least 10 of Georgia’s 14 U.S. Congressional Districts (see the map, below). Don’t let your Congressional District be left out of the reporting!

If possible, take photographs of the work and share them with the Chapter so that we can publicize the good work of our members. Please email pictures to jcarson@gaacp.org.
