

Aloha! Please see the following from Dr. Nigg regarding opioid abuse and misuse feedback.

Aloha kakou,

The Department of Health in partnership with the University of Hawai'i Office of Public Health Studies is conducting a needs assessment to inform strategies for prevention and response to prescription opioid abuse and misuse in the state of Hawai'i. A critical part of that process is getting feedback from experts in the field.

We strongly encourage you to take 15-20 minutes of your time and complete the online survey linked below. Your responses will inform the next steps in our strategic planning process.

https://www.surveymonkey.com/r/Opioid_Needs_Assessment

This survey itself is anonymous; your email is not linked to your answers and is only collected to confirm completion (and stop us from following up with you). Only the research team will see the raw data generated by the survey. We encourage you to be candid in your thoughts about what State and key stakeholders should be doing to prioritize efforts.

If you have any questions with the survey or would prefer to speak to someone over the phone, please contact Dr. Claudio Nigg at cnigg@hawaii.edu or [\(808\) 956-2862](tel:8089562862).

Mahalo,
Claudio Nigg
