HJM & PH

HAWAI'I JOURNAL OF MEDICINE & PUBLIC HEALTH

Volume 77, No. 10

October 2018 Issue

In the October 2018 edition of *HJM&PH*, we feature a case report of adult onset Henoch-Schonlein purpura associated with a metastatic malignancy of unknown primary origin; a study assessing the accuracy of physician self-disclosed PID reporting; and an exploratory study of physical activity, nutrition, and obesity among Pacific Islander youth and young adults in Southern California. In the *Medical School Hotline*, learn more about all the wonderful things happening in the Department of Medical Technology at the John A. Burns School of Medicine. Finally, the *Scripts* column provides analysis of the effects of vancomycin use and deescalation in patients hospitalized with pneumonia.

ABOUT US

About Us

HJM&PH is a peer-reviewed, fully-indexed, online journal that is distributed to over 11,000 individuals throughout Hawai'i and the Pacific. The Journal is a joint effort between the Hawai'i Department of Health (DOH) and the University Health Partners of Hawai'i (formerly University Clinical, Education, & Research Associates, UCERA) at the John A. Burns School of Medicine (JABSOM).
