HAWAI'I JOURNAL OF MEDICINE & PUBLIC HEALTH

Volume 77, No. 9

September 2018 Issue

In the September 2018 edition of *HJM&PH*, we feature a study examining the epidemiology of slipped capital femoral epiphysis in American Samoa; a study on the Kona Hawai'i WIC Oral Health pilot project; and a study examining the utility of rapid influenza antigen tests. In the *Medical School Hotline*, read about the various ways physicians care for their patients. Finally, in the *Insights in Public Health* column, we present findings from a community food assessment on Lana'i.

— ABOUT US —

About Us

HJM&PH is a peer-reviewed, fully-indexed, online journal that is distributed to over 11,000 individuals throughout Hawai'i and the Pacific. The Journal is a joint effort between the Hawai'i Department of Health (DOH) and the University Health Partners of Hawai'i (formerly University Clinical, Education, & Research Associates, UCERA) at the John A. Burns School of Medicine (JABSOM).
