Medical Students and Resident/Fellows Needed for Story Slam at ACP Future IM Meeting

On May 14 - 15, 2021, ACP will be holding a virtual event for ACP Medical Student and Resident/Fellow Members titled, ACP Future IM Meeting.

Although the ACP Future IM Meeting landing page is not yet on the ACP website, we want to start soliciting/spreading the word about the story slam happening during the event.

We need 10 participants to speak on the theme: lessons learned from the pandemic as a trainee.

Medical students and residents/fellows must be ACP members, but they do not need to be registered or be "present" during the story slam on May 15. As you'll see from the directions on the submission form, they need only submit their information and a URL to their 5-minute story. If selected, their stories will be edited together with the other chosen submissions for the hour-long story slam.

Here is the form to submit stories. Applicants need to be logged into their ACP account in order to access the form:
