ABSTRACTS PUBLISHED IN OREGON ELECTRONIC BOOKLET

Abstracts as submitted for Oregon ACP may be published in electronic journal compiled by the Chapter.

JUDGING CRITERIA

Judging Criteria Clinical Vignette:
Judging Criteria Research:

Presentation, Significance, Interview, Visual Impact.
All above, plus Originality and Methods.

ABSTRACT CATEGORIES

Clinical Vignette: A clinical vignette is a report of one or more cases that illustrates a new disease entity, or a prominent or unusual clinical feature of an established disease. It may include a summary of pertinent patient history, physical findings, laboratory data, or management description.

Quality Improvement-Patient Safety: Submissions can report on efforts to improve patient safety or outcomes measurement. Such efforts may be projects developed and initiated to promote patient safety and/or processes that have improved or created a safer environment for patients. Abstracts may also be submitted that relate to the use of outcome data, how to measure and convert data into information.

High Value Care: Projects that focus on: reducing waste in the system (unnecessary testing and treatment or inappropriate setting for care), minimizing harms (radiation exposure, medication side effects), or improving patient care through communication (incorporating patient values and concerns into care plans).

Research-Basic: To improve human health, scientific discoveries must be translated into practical applications. Such discoveries typically begin at the bench with basic research—in which scientists study disease at a molecular or cellular level.

Research-Clinical: Patient-oriented research. Research conducted with human subjects (or on material of human origin such as tissues, specimens and cognitive phenomena) for which an investigator (or colleague) directly interacts with human subjects. This area of research includes: mechanisms of human disease; therapeutic interventions; clinical trials; development of new technologies; analysis of existing datasets; epidemiologic and behavioral studies; outcomes research and health services research.

ORAL PRESENTATIONS - OREGON

Oral Presenters, present ONLY Clinical Vignette abstracts. Please **make sure your abstract title matches that of your final oral presentation---do not give away the diagnosis in the abstract title!!** Disclaimer: Any incorporated short video clips in your presentation, or similar type of video, may or may not work, depending on circumstances surrounding infrastructure of presenters and/or Oregon ACP audio-visual. Online platforms can present unforeseen challenges, so we cannot guarantee sound or video quality. We do not allow any additional things such as PollEverywhere or Zoom Poll, other audience response systems. Clinical Vignette Abstracts for oral presentations, may not be used for the Oregon Poster Competition. Residency programs determine who from their program, will give oral presentations. Legacy: 2; OHSU: 2; Prov-Portland: 1; Prov-StVincent 1; Samaritan Health: 1; Hillsboro Medical Center: 1.

PRIOR ABSTRACTS SUBMITTED / PUBLISHED CONTENT

- Abstracts previously presented at other regional ACP Chapters (non-Oregon) or other medical specialty societies are eligible for submission.
- Abstracts previously submitted to National ACP or Oregon Chapter are not eligible for re-submission and are subject to disqualification.
- Research must not be published or in press as a manuscript.
- Original abstracts that either, have or have not been presented at other meetings, including ACP Chapters/Regions will be considered.
- Presentation of original work at the ACP Meeting may, however, jeopardize presentation before another society.
- Abstracts are eligible if they have been published, however, abstracts based upon full papers that have been published are not eligible.

MISC

- Abstracts should list additional authors, including: full name, credentials, and institution name.
- Limit 450 words.** This does not include abstract title, authors, institution name, or references (these are entered into specific fields where requested). Do not include any graphs, charts, images, bars, tables, etc.
- Do not include references in the text field; you can however, include references on your poster.
- For both Residents and Medical Students, 1st Place Winners in all abstract categories will be automatically slated for competing in the Spring 2022 National ACP Competition in Chicago, IL. Residents cover their own costs to attend this Competition/Meeting (training program may absorb cost?). Medical Student expense reimbursement will be up to \$800.00, per student, to offset travel & lodging, utilizing Oregon ACP travel policies.

RESOURCES

--National ACP produces resources related to the National Competition, rules, guidelines abstract eligibility, author eligibility, abstract format, organization of body of abstract, usage of abbreviations-symbols-nomenclature, etc. Please see link to national ACP website for the College's Guide to Preparing for the Abstract Competition:

<https://www.acponline.org/membership/residents/competitions-awards/acp-national-abstract-competition>

--The OHSU internal medicine residency program has a fantastic scholarship website that has a trove of resources, including for poster creation including templates--<https://www.ohsu.edu/school-of-medicine/medicine/scholarship-resources>.

The residency program has also created an archive of past resident posters in annual virtual poster sessions, so there are dozens of examples—this is the most recent one from 2018
