2019 ANNUAL MEETING AND INTERNAL MEDICINE UPDATE & BOARD REVIEW

Achieving Excellence in Patient Care

March 8-10, 2019
La Concha Renaissance Hotel
San Juan, PR
GOVERNOR WELCOME MESSAGE

Dear colleagues and friends,

Welcome to the premier educational activity for internists in Puerto Rico: Achieving Excellence in Patient Care American College of Physician Annual Meeting and Internal Medicine Update & Board Review. The program committee has planned a balanced scientific program where participants will have the opportunity to update their knowledge in the current practice of outpatient and inpatient care in Internal Medicine. The course will be offered by local and Mayo Clinic faculty. At the same time, a relaxed social gathering will give us the chance for networking with peers.

During March 8 to 10, 2019, we will also have the opportunity of greeting and congratulating our new Master, Dr. Germán Malaret, the Laureate awardee, Dr. José Lozada Costas and the recipient of the volunteerism award, Dr. Adriana Marzán. The president of the college, Dr. Ana María López will give a keynote lecture.

Enjoy our annual meeting!

2019 AWARDS

Germán Malaret, MD MACP • MASTERSHIP AWARD

Dr. Germán Malaret received his medical degree from Harvard College. After an internship in the Pennsylvania Hospital, he completed a residency in Internal Medicine and a fellowship in Cardiology at Charity Hospital and Tulane School of Medicine. Upon his return to Puerto Rico, he held various teaching appointments in hospitals, including the University of Puerto Rico School of Medicine. He was instrumental in the foundation of the Cardiovascular Center of Puerto Rico and the Caribbean, where he was medical director as well as active faculty member. Dr. Malaret has been a leader in many organizations, including the PR Heart Association, the PR Society of Cardiology, the PR Medical Association, the American Heart Association, the American College of Cardiology, hospital boards, community organizations, and a trustee for the University of Puerto Rico. Close to his heart and a lifetime commitment has been the American College of Physicians. A former Governor of the ACP, his leadership, support, and constant presence have made him a champion and a role model of what an internist is. For his service to the ACP, he was honored with the Laureate Award. He has served the community with his expertise and high moral standards, setting an example and educating on what an ethical and professional practice of medicine should be, free of commercial and political pressures in the service of society. His legacy lives on in the many physicians he has taught, befriended, counseled, or merely inspired. For his lifetime achievements, he has been selected for the distinction of Master of the American College of Physicians.

José Lozada Costas, MD FACP • LAUREATE AWARD

Dr. José Lozada Costas received his medical degree from the University of Puerto Rico School of Medicine. He trained as an Internist and Oncologist at Baylor College of Medicine in Texas. He became an ACP fellow in 2011. He has been in clinical practice as an oncologist in San Juan, Puerto Rico and is affiliated with Auxilio Mutuo Hospital. He has provided excellent care to his patients and served as mentor to fellows, residents and students. He served as governor of ACP Puerto Rico chapter from 2014 to 2018. As member of the ACP Board of Governors, he served in the Clinical Skills Committee, Post-Graduate/Chapter Education Committee, and the Volunteerism Committee. Dr. Lozada has upheld the high ideals and professional standards for which the College is known making him an excellent candidate to receive the most prestigious honor bestowed to a member at the local level.

Adriana Marzán, MD
COMMUNITY SERVICE & VOLUNTEERISM AWARD

Dr. Adriana Marzán Loyola is an Internal Medicine resident at the Veteran’s Administration Caribbean Health System. Hurricane María forced her to postpone her wedding. So instead, she set out to seek relief organizations. Her efforts led her to Doctoras Boricuas and a large shipment of supplies that needed someone to receive, organize and distribute them. Dr. Marzán mobilized residents from the VA and other programs to help with this job. As more supplies arrived, Dr. Marzán joined forces with other physicians, and #MedicosporPuertoRico was formed. A larger warehouse, multiple collaborations and a growing chain of distribution reached with essentials, insulin and medications more than a hundred places, almost all municipalities and homes for the elderly. Dr. Marzán’s initiative, leadership, teamwork and altruism in the face of a disaster make her worthy of the ACP Volunteerism and Community Service Award.
FACULTY DISCLOSURE POLICY - It is the policy of Ponce School of Medicine to ensure independence, balance, objectivity, scientific rigor and integrity in all of its sponsored educational activities. All persons who are in a position to control the educational content of a sponsored activity are expected to disclose to the participants any relevant financial relationship(s) they and/or spouse/partner have with the commercial supporters and/or providers of commercial services and/or manufacturers of any commercial products discussed during the educational activity. All conflicts of interest have been identified and resolved prior to the release of this activity. The faculty has reported financial relationships or relationships to products or devices they or their spouse/partner have with commercial interests related to the content of this CME activity.
