Speakers
Abebe Abebe, MD FACP
is an assistant professor at the University of Kansas Health System since 2008 where he has been working as a hospitalist. He earned his undergraduate medical education from Jimma University in Ethiopia. He subsequently completed his residency training in internal medicine at KU Internal medicine residency program. He currently is a core faculty in the residency program, a thread head for professionalism in the new ACE curriculum and was formerly the clerkship director for sub-interns at the KU School of Medicine. He is involved in several student and resident education programs. He is a current Fellow of the American College of Physicians.

Megan Dingwall, MD
is a native of Wichita who completed medical school and internal medicine residency at the University of Kansas School of Medicine-Wichita. After completing her training, she began working as a hospitalist at Wesley Medical Center in Wichita, KS. She has also remained involved at KU-Wichita as an Associate Program Director for the Department of Internal Medicine and as Coordinator for Quality Improvement Education for the Department of Research. She has been active in quality improvement projects and has presented her work at local and national conferences.

Bob Doherty, SVP American College of Physicians Governmental Affairs & Public Policy
The American College of Physicians is the largest physician specialty society and second largest medical organization in the United States. ACP represents 137,000 Internal Medicine physicians and medical students. Mr. Doherty has more than 33 years of health policy experience and is an accomplished presenter at health conferences. From 1979 to 1998, Mr. Doherty worked in the Governmental affairs Department of the American Society of Internal Medicine, and with the merger of ASIM and ACP in June, 1998, joined the ACP as Senior Vice President for Governmental Affairs and Public Policy. He has senior staff management responsibilities for ACP’s departments of legislative affairs, public policy, regulatory affairs, and public affairs.

Michael E. Grant, MD FACP
is Clinical Assistant Professor of Medicine at the University of Kansas School of Medicine in Wichita. He serves as a volunteer faculty member educating Wichita branch KU Medical Students and Residents and more recently PA Students from WSU in Nephrology. He received his MD from KU; completed his Internal Medicine Residency and was Chief Resident at the Wichita Branch, returning to the Kansas City Campus to complete his Fellowship in Nephrology. He is in private practice at The Wichita Nephrology Group where he has been for 26 years. He is Board Certified in Internal Medicine, Nephrology and Hypertension. Currently he serves as Medical Director of Acute Dialysis Services at Via Christi; Pratt Dialysis and Winfield Dialysis for DaVita Dialysis Inc. His Clinical interests include Polycystic Kidney Disease; Resistant Hypertension and Fluid, Electrolyte and Acid-Base Balance. When not working he enjoys gardening, hunting, fishing and occasionally attempts to golf.

Bart A. Grelinger, MD FAAN
is a board-certified neurologist with Neurology Consultants of Kansas in Wichita, Kansas, with a special interest in sports-related head injury. He is currently chairing a statewide workgroup, the Kansas Sports Concussion Partnership, through the Medical Society of Sedgwick County for the development of Kansas state guidelines for the sideline management of concussion and head injury in sports. His educational background includes the University of Kansas Medical School and Neurology residency and fellowship in neuromuscular disease at the University of Colorado. Dr. Grelinger is a frequent local, regional, and national presenter on multiple neurologic topics, and has several neuroscience related publications. In his personal time, he enjoys rebuilding antique motorcycles and training in Tae Kwon Do, where he is currently a 4th degree Black Belt.

Zubair Hassan, MD FACP
is the Director of Specialty Care at the Robert J. Dole VA Medical Center, Wichita, KS. He is board certified in Internal Medicine, Pulmonary, Critical Care and Sleep Medicine. He is on faculty at the KUSM-Wichita as Clinical Associate Professor and as the Director of the Intensive Care Unit is closely involved in the teaching of the students and medical residents. He is a fellow of the American College of Physicians, American College of Chest Physicians and the American Academy of Sleep Medicine. He also has a Certificate of Completion in Critical Care Ultrasonography from the American College of Chest Physicians.

Debby Jackson, BSN, JD
is the current Director of Risk Management at the University of Kansas Health System in Kansas City, Kansas. Debby has been a nurse for the past 40 years as well as an attorney for the last 28. Her experience in risk management as a nurse and as an attorney gives her immense understanding into the quality and safety needs of an organization’s patients, staff, and visitors. She helps to identify, evaluate, and alleviate practices or situations, including those related to the EMR, that present actual or potential risks to patients, visitors, staff or facility property and reputation.

Jennifer Jackson, MD FACP
is Associate Professor of Internal Medicine at the University of Kansas School of Medicine-Wichita (UKSM-W) where she serves as Associate Program Director, Director of Outpatient Medical Education and inpatient ward attending at Via Christi Hospitals of Wichita. She is the medical director for Via Christi Hospitals Transitional Care programs focusing on disease management in high risk and vulnerable patient populations. These programs received the 2015 Kansas Healthcare Collaborative Leadership in Quality Award: Achievement in Care Transitions that Address Readmissions. An advocate for food integrity, healthy eating and sustainable agricultural practices, Jackson and her family started a farm using rotational grazing and “beyond organic” farming practices specializing in grass finished beef, pastured poultry, pork and honeybees.

Ian S. Kovach, MD PhD FAAOS
specializes in the surgical treatment of arthritis and total joint replacement including revisions and complex primaries. He received his medical degree from Harvard Medical School in Boston and a PhD in Physics from MIT. Dr. Kovach completed his fellowship in Orthopedics/Hip and Knee Replacement at Massachusetts General Hospital. He is board certified through the American Board of Orthopedic Surgery.
Lindy H. Landzaat, DO FAAHPM is an Assistant Professor at the University of Kansas Health System practicing full-time Hospice and Palliative Medicine. A graduate of Rockhurst University and Kansas City University of Medicine and Biosciences, she completed her categorical Internal Medicine Residency at St. Mary’s Health Center in St. Louis, MO. She then completed Hospice & Palliative Medicine Fellowship at Harvard. She joined the KU Faculty in 2009 and currently serves as the Hospice & Palliative Medicine Fellowship director. She was named one of the “40 under 40 Inspirational Leaders” in Hospice & Palliative Medicine in 2014.

Jing Liu, MD FACP FCCP is a staff pulmonologist at Robert J Dole VA Medical Center, Wichita, Kansas. She is board certified in Internal Medicine, Pulmonary and Critical Care Medicine. She is on faculty at the KUSM-Wichita as Clinical Associate Professor at Kansas University School of Medicine and is closely involved in the teaching of medical students and residents. She is a fellow of the American College of Physicians, and American College of Chest Physicians. She also has a Certification of Completion in Critical Care Ultrasonography from the American College of Chest Physicians.

Lawrence J. Logback, JD is a partner in the law firm of Simpson, Logback, Lynch, Norris, P.A. His practice encompasses all aspects of health care law and litigation, focusing on the defense of malpractice claims brought against hospitals; physicians, A.R.N.P.’s and nurses. He has handled cases which required an understanding of medical specialties including obstetrics, neurosurgery, psychiatry, anesthesia, family medicine, emergency medicine and general surgery. He has litigated issues involving catastrophic spine and brain injuries, delayed diagnosis of cancers, pharmacological neurotoxicity, anaphylaxis, sepsis, stroke and aneurysm. He also advises corporate healthcare clients on the most economical and effective methods of addressing employment, contract, HIPAA, Medicare reimbursement, and Stark issues. He has served as lead counsel in more than forty trials, before state and federal judges and juries in a diverse range of venues from Kansas City, Wichita and St. Louis to Emporia, Hays and Pittsburg. He began litigating cases after graduating from law school in 1994 as an Assistant Attorney General for the state of Kansas. In 1997, he began private practice in Wichita, at the Martin, Pringle law firm, at which time he attended the IADC Trial Academy. In 2000, he moved to Kansas City. Larry grew up in Goessel, Kansas and now resides in Overland Park with his wife Carrie and kids: Easton, Edie, and Ellie.

David Meltzer, MD PhD FACP Mahlon H. Delp Lecturer is Chief of the Section of Hospital Medicine, Director of the Center for Health and the Social Sciences and the UChicago Urban Health Lab, and Chair of the Committee on Clinical and Translational Science at The University of Chicago, where he is The Fanny L. Pritzker Professor in the Department of Medicine, the Harris School of Public Policy Studies and the Department of Economics. Meltzer’s research explores problems in health economics and public policy with a focus on the theoretical foundations of medical cost-effectiveness analysis and the cost and quality of hospital care. He currently leads a CMMI Challenge award to study the effects of improved continuity in the doctor-patient relationship between the inpatient and outpatient setting on the costs and outcomes of care for frequently hospitalized Medicare patients. He helped lead the CTSA-funded Chicago Learning Effectiveness Advancement Research Network (Chicago LEARN) and the PCORI-funded Chicago Area Patient Centered Outcomes Research
Network (CAPriCORN). Meltzer completed his MD and PhD in economics at the University of Chicago and his residency in internal medicine at Brigham and Women’s Hospital. His awards include the Garfield Award from Research America, the AHRQ Eisenberg Excellence in Mentoring Award, and the AAMC Learning Healthcare System Award. He is a member of the National Academy of Medicine.

Thomas A. Moore, MD FACP FIDSA is Clinical Professor of Medicine at the University of Kansas School of Medicine in Wichita, KS. A graduate of Washington University in St. Louis and the University of Kansas School of Medicine, Dr. Moore completed his residency in internal medicine at Baylor College of Medicine in Houston, serving as Chief Resident at The Methodist Hospital. Subspecialty training in infectious diseases was completed at the National Institutes of Health (NIH) in Bethesda, Maryland. Dr. Moore served as Chair of the Department of Infectious Diseases at Ochsner Medical Systems, New Orleans, LA, 2010-2012; and Chair of the Anti-Infective Drug Advisory Committee for the FDA 2008-2012 before returning to his home state of Kansas. In addition to clinical duties, Dr. Moore is actively engaged in research and education, authoring numerous papers and textbook chapters, and he has received teaching awards from students and residents, and peer recognition for service to his community. Dr. Moore has been a principal investigator for international research projects involving strongyloidiasis and national trials evaluating treatments for West Nile Virus.

Joseph Nold, Jr., MD FACS is from Wichita, KS, and attended the University of Kansas and University of Kansas Medical School. He returned to Wichita for his general surgery residency. Following this, he completed his Trauma/Critical Care fellowship at the R. Adams Cowley Shock Trauma Center in Baltimore, MD. He returned to Wichita in 2004. Dr. Nold is currently the Director of the Surgical ICU, Pediatric Trauma Director and Associate Trauma Director at Via Christi St. Francis as well as a practicing general surgeon.

Jeffrey G. Norvell, MD RDMS is a clinical assistant professor of Emergency Medicine at the University of Kansas Medical Center. He has co-authored peer-reviewed publications on ultrasound in Critical Care Medicine and Emergency Medicine Australasia. He is a registered diagnostic medical sonographer (RDMS) in the abdomen specialty, uses ultrasound in his daily practice of Emergency Medicine, and is involved in bedside teaching of ultrasound to residents and students.

Jody Clayton Olson, MD FACP attended medical school at the University of Nebraska Medical Center. He completed his Internal Medicine Residency at the University of Minnesota under the Centers for Disease Control sponsored Global Health Pathway. He then completed fellowships in Critical Care Medicine and Transplant Hepatology at Mayo Clinic in Rochester, Minnesota. He is currently an Assistant Professor in the Departments of Internal Medicine and Surgery at the University of Kansas Medical Center and is primarily affiliated with the liver transplant program. His clinical interests are centered on caring for patients with advanced liver disease in the inpatient and intensive care setting. His research is focused on the critically ill liver disease patient, both acute and chronic and works in the area of acute-on-chronic liver failure. In addition he is the site primary investigator for the NIH sponsored United States Acute Liver Failure Study Group at the University of Kansas.
Isaac O. Opole, MD PhD FACP Governor, Kansas Chapter ACP
is an Associate Professor of Internal Medicine and Assistant Dean for Student Affairs at the University of Kansas School of Medicine in Kansas City. He is also the Director for the Internal Medicine Clerkship, Medical Director for ACIS at the University of Kansas Health System, and Society Director for the Wahl Academic Society. He is the current Governor of the American College of Physicians Kansas Chapter. His clinical practice is in Hospital Medicine, with research interest in quality outcomes, medical informatics and perioperative medicine. He is also intimately involved in medical education and curriculum development, as part of the University of Kansas ACE curriculum steering committee.

Jonathan D. Pankow, MD
is a native of Wichita, KS. He attended Baylor University in Waco, TX before entering medical school at Kansas University School of Medicine - Wichita, KS. He remained at KU-Wichita where he completed his residency and served as a third-year chief. He is currently working as a hospitalist while his wife, Dr. Stephanie Pankow, completes her residency at KU-Wichita Internal Medicine. Next year, Jon and Stephanie plan to pursue fellowships in Nephrology and Infectious Disease, respectively. They just had a beautiful baby daughter, Ava. Jon enjoys fitness and is an avid runner. He qualified for the Boston Marathon in medical school and hopes to qualify for and compete in it again for 2018.

Andrew Sauer, MD
completed medical school at the University of Rochester in New York. He pursued additional training through a residency and internship at Massachusetts General Hospital. He completed his fellowship at McGaw Medical Center of Northwestern University, Chicago. Dr. Sauer is certified by the American Board of Internal Medicine and holds sub-certifications in cardiovascular diseases, advanced heart failure and transplant cardiology. His clinical practice is focused on heart failure, advanced heart failure, congestive heart failure, ventricular assist devices and mechanical circulatory support devices.

Paul S. Schmidt, MD
is an Assistant Professor at the University of Kansas Medical Center in Kansas City, KS in the Department of Rheumatology, Division of Allergy, Clinical Immunology and Rheumatology. He completed his internal medicine residency and rheumatology fellowship at The University of Kansas Medical Center. His clinical interests include scleroderma and rheumatoid arthritis and he has a general rheumatology practice. He is involved with teaching and mentoring medical students, residents and fellows.

Tiffany E. Schwasinger-Schmidt, PhD MD
is an Assistant Professor of Internal Medicine at the University of Kansas School of Medicine Wichita (UKSM-W). She received her PhD in Genetics, Genomics, and Bioinformatics at the University of Nebraska-Lincoln with an emphasis on the heritability of genetic determinants of obesity and the effects of dietary manipulations. She continues to pursue her research endeavors in obesity and diabetes as a member of the faculty and is actively engaged in the promotion of student and resident research projects through mentorship. She is the Co-Clerkship Director for the 3rd year Internal Medicine Clerkship at the University of Kansas School of Medicine. She is
actively engaged in medical student education and serves as a Case Based Collaborative Learning (CBCL) Instructor for the first year medical students at the University of Kansas School of Medicine Wichita. Dr. Schwasinger-Schmidt additionally maintains an active general medicine practice.

Sarah Stolte, MD
grew up in the Kansas City area and attended the University of Kansas for both undergraduate and medical school. She then completed her internal medicine residency and chief residency at the University of Kansas, Kansas City campus. She is now enjoying a primary care practice affiliated with the University, but located in Overland Park, KS. In addition, she enjoys her role as medical director of the KU Center for Physical Activity & Weight Management. Outside of work, she enjoys spending time with her family, reading, and being outdoors.

Mohammad Taha, MD
is an Assistant Professor and Hospitalist in the Department of Internal Medicine at University of Kansas Health system. He graduated from Damascus University Medical School in 2002 and completed internal medicine residency at University of Missouri at Kansas City UMKC in 2007, right after he joined Internal medicine faculty at University of Kansas Medicine Center. Dr Taha is currently the director of anemia management services at the University of Kansas Health system; he is interested in anticoagulation and perioperative anemia management. He is the coauthor of Internal Medicine Practice Review September 2015 titled: New Options in Anticoagulation: A Hospitalist Guide to Non –Vitamin K Antagonist Oral Anticoagulants.

Stephanie Thom, MD
is an Ultrasound Fellow and a Clinical Assistant Professor at the University of Kansas School of Medicine. She completed her residency training at Detroit Medical Center – Sinai Grace Hospital. She is passionate about medical and ultrasound education.

Muhammad Omer Toor, MD FACP
completed his internal medicine residency at University of Illinois. Post residency, he was involved in active teaching of medical students and residents as a teaching hospitalist. He has been actively involved with the American College of Physicians during and after residency. Recently he moved to Kansas City to pursue a Hematology/Oncology Fellowship.

Stephen Waller, MD
is a graduate of the University of Missouri School of Medicine. He trained in internal medicine at the University of Missouri-Columbia and University of Iowa. Thereafter, he completed a fellowship in infectious diseases at the University of Missouri-Columbia. Since 2004, he has been a member of the Division of Infectious Diseases at the University of Kansas Health System. Clinical interests include infections in the immunocompromised, non-tuberculous mycobacteria infections and tick-borne infections. Research interests include medical device development. Dr. Waller is board certified in internal medicine and infectious diseases.

2017 SD ACP Annual Meeting Planning Committee
Jennifer Jackson, MD FACP Chair

Isaac Opole, MD PhD FACP Governor, Kansas Chapter ACP
MOC Statement:
Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 14.50 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credit claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

To claim MOC points for this activity, the ABIM requires that learners be enrolled in their MOC program. The ABIM also requires learners complete a comprehensive evaluation (e.g. quiz) of the learning that took place. Quiz questions are based on the meeting material, a minimum score of 60% is required to claim MOC points, and multiple attempts are permitted. If you have any questions about claiming MOC points, please contact ACP. If you have any questions about the MOC program, please contact the ABIM.

CME Accreditation Statement:
The American College of Physicians is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The American College of Physicians designates this live activity for a maximum of 14.50 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
