SCIENTIFIC MEETING
FOSTERING EXCELLENCE IN INTERNAL MEDICINE

SEPTEMBER 8-9, 2017
WILDERNESS HOTEL AND GOLF RESORT
WISCONSIN DELLS, WISCONSIN

This event has been designated for a maximum of 14 CME credits.

Program Co-Chairs: Bipin Thapa, MD, MS, FACP and Thomas D. Shiffler, MD, FACP
Dear Colleague,

I invite you to join me and your colleagues in internal medicine at the next scientific meeting of the Wisconsin Chapter of the American College of Physicians, being held September 8-9, at the Wilderness Hotel and Golf Resort.

This meeting is not just for ACP members. I particularly want to invite nonmembers to join us for this important clinical update and to learn about the benefits of membership at the same time.

In addition to earning up to 14 CME credits, by attending this meeting you will:

• Gain insight into recent medical advances.
• Discuss local and national public health issues affecting the practice and teaching of internal medicine.
• Greet old friends, meet new friends, and develop a network of colleagues in your area.

Between scientific sessions, please visit the College table. You will find information on new ACP programs, products, and services. There’s always something new at the College table—stop by and see for yourself.

To ensure your place at this invaluable meeting, complete the registration form at the back of this brochure and send it in today. The opportunities available at this meeting will help you meet not only your needs as a physician, but also the needs of the patients you serve.

I look forward to seeing you in Wisconsin Dells.

Sincerely,

Mark K. Belknap, MD, FACP
ACP Governor, Wisconsin Chapter

**Point of Care Ultrasound Workshop**

**Workshop Title:** Non-Cardiac Applications of Point of Care Ultrasound (POCUS)

**Course Co-Directors:** Ricardo A. Franco Sadud, MD; Adrian P. Umpierrez de Reguero, MD, FACP

During this workshop, we will introduce the learners to:

1. Basic principles of ultrasound, including a review of physics, knobology and the applications of bedside ultrasound to enhance physical examination findings.
2. Evaluation of Aorta, Inferior Vena Cava, Kidneys and Urinary Bladder to aid in assessment of volume status and rapid determination of post-renal causes of renal failure.
3. Evaluation of lung, with emphasis on finding suggestive of interstitial edema, consolidation and the ability to exclude pneumothorax.

The workshop will include both didactic sessions with review of cases to enhance learning and hands-on experience.

---

**Ultrasound Guided Procedures Workshop**

**Workshop Title:** Ultrasound Guided Procedures Workshop

**Course Directors:** Dai Takahashi, DO, FACP

During this workshop, we will introduce the learners to:

1. Pharmacology of sedatives and paralytics commonly used for endotracheal intubation.
2. Variety of techniques and instruments used for endotracheal intubations like glidescope, buggies, and other various ways for endotracheal intubations.
3. Quick review of initial Ventilator Management.
4. Various venous access with focus on ultrasound guided central venous access with various approach.
5. Intra-Osseous access and PICC placement.

The workshop will include both didactic sessions and hands-on experience.

---

**Please Note:**
1. Registration for workshop is limited to 16-20 participants on first come first serve basis.
2. In an event of unforeseeable and unavoidable circumstances, planning committee reserves right to cancel either or both workshops without prior notice. In such event, fee towards workshop registration will be reimbursed.
