No, the poster competitions will take place at the Internal Medicine Meeting in Chicago, IL. At this time, we will not offer the opportunity to present virtually. How do I create a Voice-over PPT presentation?

If you are creating your ePoster on a Windows device, see the link for Creating a Voice-Over PowerPoint Presentation.

If you are creating your ePoster on a MacBook, use these instructions:

On many MacBooks, PowerPoint will not save as an MP4 with audio. Here are the steps MacBook users need to follow to save their poster presentations as MP4's.

1. Do not use PowerPoint to record your voice
2. Instead, use QuickTime player to make a screen recording. <https://support.apple.com/en-us/HT208721>
3. Use iMovie to convert the QuickTime file to an MP4: <https://www.youtube.com/watch?v=L4LhjpKIRAQ>
