

ACP Well-being Champions and Chapter Leaders can use these interventions to meet the specific needs of their local chapter members and promote internist well-being and professional fulfillment in their communities. These interactive events and discussion resources focus on measurements to gather input for intervention planning efforts. For example, these materials could inform strategic plans, didactic presentations, informal chats, and social media posts.

### Webinar Recording:

- [How to review and analyze Mini-Z data](#) - Mark Linzer and Sara Poplau of Hennepin Healthcare take you step-by-step through the analysis of a chapter's Mini Z data (Login required, 40 mins).

### Survey Sites:

- [Monitor the well-being of your physicians and care teams during COVID-19](#) - the AMA offers 2 no-cost surveys to help health care systems and practices monitor the impact COVID-19 has on frontline staff during this pandemic.
- [Burnout and Well-being Measurement Instruments Resource Suite](#) - a summary of established tools to measure work-related dimensions of well-being. Each tool has advantages and disadvantages and some are more appropriate for specific populations or settings.

### Journal Articles:

- [Health Policy Evaluation of Work Satisfaction, Stress, and Burnout Among US Internal Medicine Physicians and Trainees](#). Survey of burnout and work satisfaction among ACP members.
- [Worklife and Wellness in Academic General Internal Medicine](#). Survey of burnout rates among GIM divisions and ideas for where sustainability efforts could be made.
