ACP Resident/Fellow Membership Benefits

Why Should Residents/Fellows Join ACP?
Because your residents’ partnership with the greater internal medicine community starts now!

Residents rely on ACP’s trusted educational resources during training. ACP provides important opportunities for networking, research, and leadership skills development they will value throughout their internal medicine careers. Resident/Fellow Members can participate in local and regional chapter events, attend the annual Internal Medicine Meeting, contend in Doctors Dilemma and abstract competitions, and serve on national committees and councils.

ACP is an essential, lifelong source of educational, clinical, career, and practice support resources. It provides a unified national voice on key issues of critical importance to internists and our patients.

Now is the time to help your residents begin this journey.

ACP Resident/Fellow Members receive free access to valuable resources, including:

- *Annals of Internal Medicine*® with ACP Journal Club® and In the Clinic® (print and online)
- ACP Internist (print and online)
- ACP Hospitalist (PGY3 residents only)
- Clinical Practice Guidelines
- Access to hundreds of job listings

Plus, substantial discounts on:

- MKSAP® 17, the latest version of the Medical Knowledge Self-Assessment Program. Resident/Fellow Members save up to $450 off the purchase price.
- Registration for the ACP Internal Medicine Meeting in New Orleans, LA, April 19-21, 2018.
- Internal Medicine Board Review courses.

Reach the goal of 90% membership
Ensure that 90% of your PGY1, PGY2, and PGY3 residents or 90% of medicine-pediatric residents are current Resident/Fellow Members of ACP. Any program whose residents are eligible for Resident/Fellow membership in ACP can participate. However, this is a limited-time offer. The 90% participation rate must be achieved by December 31, 2017, to secure free educational products from the College.

The 90% requirement refers to the number of dues-paid ACP Resident/Fellow Members in good standing.

Enrollment Options
Applications are provided

- Information kits containing an ACP Resident/Fellow Membership application and a description of benefits will be sent automatically to each program by June of this year. Please make them available to residents in your program. Downloadable applications are also available from the College’s Web site at www.acponline.org/rar17.

Online group enrollment

- Program administrators or coordinators can now register all new residents for ACP membership by completing one online form. Quick and easy to use, online registration replaces the need for residents to complete individual applications. Register your new residents for membership today. Visit www.acponline.org/rar17 for more information.

For questions or additional information, please contact Membership Development at 800-523-1546, ext. 2666, or at rar@acponline.org.
Reach the 90% Goal and Receive Free Educational Products
Enroll 90% of your residents or 90% of all medicine-pediatric residents by December 31, 2017, and all of your residents will receive access to free educational resources, including:

- Internal Medicine 2017 handouts—including all of the Updates and Multiple Small Feedings of the Mind
- In the Clinic compendium—featuring 12 issues of In the Clinic from Annals of Internal Medicine
- Procedural short videos—featuring technical procedures being performed on either a stimulated or live model; each video is an excellent resource to help your residents improve their clinical skills

Strengthen the future of internal medicine. Enroll your Residents as ACP members today!

For questions or additional information, please contact Membership Development at 800-523-1546, ext. 2666, or at rar@acponline.org.
